

FARM CREDIT ADMINISTRATION  
LOAN ACCOUNT REPORTING SYSTEM INSTRUCTIONS

Revision No. 38  
Effective September 15, 2002

Enclosed is the thirty-eight revision to the Farm Credit Administration's Loan Account Reporting System (LARS) Instructions. Revisions of specific instructions are identified on each page by an asterisk in the left margin of the section that has been revised. Revision No. 38 should be filed after the "Revisions" tab in your instruction book. All LARS instructions should be filed in the back of your Uniform Call Report Instruction Manual. Listed below is an explanation of the revisions.

Discussion of Revision

Standard Industrial Codes

The following codes and definitions were added: 1542 General Contractors – Nonresidential Buildings, Other Than Industrial Buildings and Warehouses; 4231 Terminal and Joint Terminal Maintenance Facilities for Motor Freight Transportation. All of the pages of this section have been reprinted.

Loan Service Organization Codes

As a result of recent association mergers and the addition and deletion of branch codes, all pages in this section have been reprinted.

Listed below are the pages that have been revised in the LARS Instructions. The revised pages should be inserted into the appropriate section of the instruction book as follows:

**AGRICULTURAL PRODUCTION—CROPS**

**The Major Group as a Whole**

This major group includes establishments (e.g., farms, orchards, greenhouses, nurseries) primarily engaged in the production of crops, plants, vines, and trees (excluding forestry operations). This major group also includes establishments primarily engaged in the operation of sod farms, and cranberry bogs; in the production of mushrooms, bulbs, flower seeds, and 3vegetable seeds; and in the growing of hydroponic crops. Seeds of field crops are classified in the same industry as crops grown for other purposes.

An establishment primarily engaged in crop production (Major Group 0100) is classified in the industry (four-digit) and the industry group (three-digit) which accounts for 50 percent or more of the total value of sales for its agricultural production. If the total value of sales for agricultural products of an establishment is less than 50 percent from a single industry group, but 50 percent or more of the value of sales for its agricultural products derives from the products of two or more industry groups within the same industry, the establishment is classified in the miscellaneous industry of that industry group; otherwise, it is classified as a general crop farm in Industry 0191. Establishments that derive 50 percent or more of their value of sales from horticultural specialties of Industry Group 0180 are classified in Industry 0181 or 0182 according to their primary activity.

**Major Group 0200 AGRICULTURAL PRODUCTION - LIVESTOCK  
AND ANIMAL SPECIALTIES**

**The Major Group as a Whole**

This major group includes establishments (e.g., farms, ranches, dairies, feedlots, egg production facilities, broiler facilities, poultry hatcheries, apiaries) primarily engaged in the keeping, grazing, or feeding of livestock for the sale of livestock or livestock products (including serums), for livestock increase, or for value increase. Livestock, as used here, includes cattle, hogs, sheep, goats, and poultry of all kinds; also included in this major group are animal specialties, such as horses, rabbits, bees, pets, fish in captivity, and fur-bearing animals in captivity.

An establishment primarily engaged in the production of livestock or livestock products (Major Group 0200) is classified in the industry (four-digit) or industry group (three-digit) which accounts for 50 percent or more of the total value of sales for its agricultural production. If the total value of sales for agricultural products of an establishment is less than 50 percent from a single four-digit industry, but 50 percent or more of the value of sales for its agricultural products derives from the products of two or more four-digit industries within the same three-digit industry group, the establishment is classified in the miscellaneous industry of that industry group; otherwise, it is classified as a general livestock farm in Industry 0291.

**MAJOR GROUP 2600 PAPER AND ALLIED PRODUCTS**

**The Major Group as a Whole**

This major group includes establishments primarily engaged in the manufacture of pulps from wood and other cellulose fibers, and from rags; the manufacture of paper and paperboard; and the manufacture of paper and paperboard into converted products, such as paper coated off the paper machine, paper bags, paper boxes, and envelopes. Also included are establishments primarily engaged in manufacturing bags of plastics film and sheet. Certain types of converted paper products are classified elsewhere, such as abrasive paper which is in Industry 3291; carbon paper in Industry 3955; and photosensitized and blueprint paper in Industry 3861.

## **MAJOR GROUP 2800    CHEMICALS AND ALLIED PRODUCTS**

### **The Major Group as a Whole**

This major group includes establishments producing basic chemicals and establishments manufacturing products by predominantly chemical processes. Establishments classified in this major group manufacture three general classes of products: (1) basic chemicals, such as acids, alkalies, salts, and organic chemicals; (2) chemical products to be used in further manufacture, such as synthetic fibers, plastics materials, dry colors, and pigments; and (3) finished chemical products to be used for ultimate consumption, such as drugs, cosmetics, and soaps; or to be used as materials or supplies in other industries, such as paints, fertilizers, and explosives. The mining of natural alkalies and other natural potassium, sodium, and boron compounds, of natural rock salt, and of other natural chemicals and fertilizers are classified in Mining, Industry Group 147. Establishments primarily engaged in manufacturing nonferrous metals and high-percentage ferroalloys are classified in Major Group 33; those manufacturing silicon carbide are classified in Major Group 32; those manufacturing baking powder, other leavening compounds, and starches are classified in Major Group 20; and those manufacturing artists' colors are classified in Major Group 39. Establishments primarily engaged in packaging, repackaging, and bottling of purchased chemical products, but not engaged in manufacturing chemicals and allied products, are classified in Wholesale or Retail Trade industries.

### **INDUSTRIAL ORGANIC CHEMICALS**

Establishments primarily engaged in manufacturing industrial organic chemicals. Important products of this group include: (1) noncyclic organic chemicals, such as acetic, chloroacetic, adipic, formic, oxalic and tartaric acids, and their metallic salts; chloral, formaldehyde, and methylamine; (2) solvents such as amyl, butyl, and ethyl alcohols; methanol; amyl, butyl and ethyl acetates; ethyl ether, ethylene glycol ether, and diethylene glycol ether; acetone, carbon disulfide, and chlorinated solvents, such as carbon tetrachloride, perchloroethylene, and trichloroethylene; (3) polyhydric alcohols, such as ethylene glycol, sorbitol, pentaerythritol, synthetic glycerin; (4) synthetic perfume and flavoring materials, such as coumarin, methyl salicylate, saccharin, citral, citronellal, synthetic geraniol, ionone, terpeneol, and synthetic vanillin; (5) rubber processing chemicals, such as accelerators and antioxidants, both cyclic and acyclic; (6) plasticizers, both cyclic and acyclic, such as esters of phosphoric acid, phthalic anhydride, adipic acid, lauric acid, oleic acid, sebacic acid, and stearic acid; (7) synthetic tanning agents, such as naphthalene sulfonic acid condensates; (8) chemical warfare gases; (9) esters, amines, etc., of polyhydric alcohols and fatty and other acids; (10) cyclic crudes and intermediates; (11) cyclic dyes and organic pigments; and (12) natural gum and wood chemicals. Establishments primarily engaged in manufacturing plastics materials and nonvulcanizable elastomers are classified in Industry 2821; those manufacturing synthetic rubber are classified in Industry 2822; those manufacturing essential oils are classified in Industry 2899; those manufacturing rayon and other manmade fibers are classified in Industries 2823 and 2824; those manufacturing specialty cleaning

#### **2869 Industrial Organic Chemicals, Not Elsewhere Classified**

Establishments primarily engaged in manufacturing industrial organic chemicals, not elsewhere classified. Important products of this group include: (1) aliphatic and other acyclic organic chemicals, such as ethylene, butylene, and butadiene; acetic, chloroacetic, adipic, formic, oxalic and tartaric acids and their metallic salts; chloral, formaldehyde, and methylamine; (2) solvents such as amyl, butyl, and ethyl alcohols; methanol; amyl, butyl and ethyl acetates; ethyl ether, ethylene glycol ether, and diethylene glycol ether; acetone, carbon disulfide, and chlorinated solvents, such as carbon tetrachloride, perchloroethylene, and trichloroethylene; (3) polyhydric alcohols, such as ethylene glycol, sorbitol, pentaerythritol, synthetic glycerin; (4) synthetic perfume and flavoring materials, such as coumarin, methyl salicylate, saccharin, citral, citronellal, synthetic geraniol, ionone, terpineol, and synthetic vanillin; (5) rubber processing chemicals, such as accelerators and antioxidants, both cyclic and acyclic; (6) plasticizers, both cyclic and acyclic, such as esters of phosphoric acid, phthalic anhydride, adipic acid, lauric acid, oleic acid, sebacic acid, and stearic acid; (7) synthetic tanning agents, such as naphthalene sulfonic acid condensates; (8) chemical warfare gases; (9) esters, amines, etc., of polyhydric alcohols and fatty and other acids. Establishments primarily engaged in manufacturing plastics materials and nonvulcanizable elastomers are classified in Industry 2821; those manufacturing synthetic rubber are classified in Industry 2822; those manufacturing essential oils are classified in Industry 2899; those manufacturing wood distillation products, naval stores and natural dyeing and tanning materials are classified in Industry 2861; those manufacturing manmade textile fibers are classified in Industries 2823 and 2824. Those manufacturing specialty cleaning, polishing, and sanitation preparations are classified in Industry 2842; those manufacturing paints are classified in Industry 2851; those manufacturing urea are classified in Industry 2873; those manufacturing organic pigments are classified in Industry 2865; those manufacturing inorganic pigments are classified in Industry 2816 and those manufacturing aliphatics and aromatics as byproducts of petroleum refining are classified in Industry 2911. Distilleries engaged in the manufacture of grain alcohol for beverage purposes are classified in Industry 2085.
