#### Assets

**1**      **Cash.**

Each reporting institution must report in item 1 its total holdings of cash and balances due from depository institutions. These include:

(a) Cash items in process of collection, currency, and coin.

(1) Include all checks or drafts in process of collection that are drawn on a depository institution (or on a Federal Reserve bank) and that are payable immediately upon presentation in the United States. This includes both checks that have been forwarded for deposit, but for which the reporting institution has not been given credit and checks on hand (i.e., from undeposited receipts) that will be presented for payment or forwarded for collection on the following business day. (However, exclude those undeposited receipts received in late mails that will be included in the next day's business.)

Also include Government agency items that are payable immediately upon presentation and that are in process of collection and any other items in process of collection that are payable immediately upon presentation in the United States and that are customarily cleared or collected as cash items by depository institutions in the United States.

(2) Include all currency and coin (any foreign currency and coin that may be held should be converted into U.S. dollar equivalents as of the report date) owned and held in all offices of the reporting institution. In addition, include

amounts held in petty cash accounts and change funds in both central and field offices. Also include currency and coin in transit to any depository institution for which the reporting institution has not yet received credit, and currency and coin in transit from any depository institution for which the reporting institution's account at the depository institution has already been charged.

(b) Holdings of interest-bearing and noninterest-bearing balances due from depository institutions in the United States and banks in foreign countries, whether in the form of demand, savings, or time balances. Though noninterest-bearing certificates of deposit and nonnegotiable interest-bearing certificates of deposit are to be included in this item, negotiable interest-bearing certificates of deposit are to be reported in Schedule RC-B, item 5(b).

\*

(c) Balances of all types, and for all purposes, due from Federal Reserve banks (e.g., funds held at Federal Reserve banks for payment of interest on consolidated and Systemwide bonds, purchase of securities, redemption of called consolidated and Systemwide bonds, clearing and working balances, etc.) as shown on the books of the reporting institution.

**2**      **Marketable investments.**

Report in item 2 the amount of marketable investments from Schedule RC-B. (See instructions for Schedule RC-B.) In most instances, the amount reported in item 2 will agree with Schedule RC-B, column B, item 11, unless the institution is accounting for any portion of its investments on a "held-to-maturity" basis. Investment amounts reported must be accounted for in accordance with Statement of Financial Accounting Standards (SFAS) No. 115, *Accounting for Certain Investments in Debt and Equity Securities*.

\*

**3**      **Accounts receivable.**

Report the amount of the reporting institution's accounts receivable in the form of amounts due on open accounts from other Farm Credit institutions and from others. Also include such receivables as:

**Schedule RC**  
**Balance Sheet (cont'd)**

<b>Item No.</b>	<b>Caption and Instructions</b>
	(a) Amounts of accrued compensation and patronage receivable from Farm Credit institutions due to the reporting institution relating to participations in loans, notes receivable, and sales contracts.
	(b) Amounts due from employees for reimbursable costs paid under employee retirement and group insurance plans, or for other amounts advanced for which the reporting institution is to be reimbursed.
	(c) Amounts due from borrowing associations, nonborrowing associations, and district banks for the amount of investment required to be made in the reporting institution's stock or participation certificates, in accordance with FCA regulations and guidelines, for which payment has not yet been received.
	(d) Amounts due from bonding companies for losses and legal expenses that were covered by bond.
	(e) Amounts due from courts and trustees in connection with foreclosed properties upon which the reporting institution had a lien and where the foreclosure sale was made to another.

All amounts of accounts receivable reported should be net of any amounts deemed uncollectible and charged off.

**4      Loans, notes, sales contracts, and leases.**

The amounts reported by the institution, as appropriate for its portfolio and in conformance to the applicable statutory and regulatory requirements, must reflect net principal amounts outstanding as of the close of business on the report date. This requires, among other things, that the reported amounts be net of:

- (a) All payments on principal received as of the close of business on the report date, including advance payments that are intended for irrevocable application to the reduction of principal, and also such payments received but not yet applied to the loan accounts as of that time; and
- (b) Undisbursed loan funds (deferred payment of loans), but include loan funds disbursed before the loan closing is recorded.

Unamortized loan fees should be deducted from loans in the amounts to be reported here, analogous to the treatment of discounted loans. The treatment of

loan fees should be in accordance with SFAS No. 91, *Accounting for Nonrefundable Fees and Costs Associated with Originating or Acquiring Loans and Initial Direct Costs of Leases*.

The amounts reported must reflect the cost of, or funds extended for, the loans, etc. In the case of loans acquired on a discount basis, the amount to be reported must be the cost adjusted by the addition of the cumulative accretion of discount through the report date. Such accretion of discount must be taken over the life of the instrument in accordance with GAAP.

**4(a) Accrual loans and leases.**

Loans of the reporting institution, in general, consist of extensions of credit, other than sales contracts and other contractual notes representing the financing of other property owned (which are treated below), resulting from either direct negotiations between the reporting institution and its customers, or the purchase of such assets from others through discounting, participations, or any other means. Similarly, loans should be reported net of such loan amounts sold, including sales of participations in these loans to other Farm Credit institutions and to any other financial institution.

Loans include the holdings by the reporting institution of its own acceptances (i.e., drafts accepted by the reporting institution) that were acquired through discount, purchase, or participation, but exclude the holdings of other institutions' acceptances (these are to be reported in Schedule RC-B, item 5(c)).

\*

Loans consist of the unmatured principal balance of accrual loans made under the authority of the Act. The Act authorized System banks and associations to make loans to bona fide farmers, ranchers, producers or harvesters of aquatic products, rural residents, and persons furnishing services directly related to the on-farm operating needs of farmers and ranchers. The Act further authorizes Banks for Cooperatives to make loans to eligible cooperatives and to domestic or foreign parties that substantially benefit a cooperative which is a voting stockholder. Farm Credit banks are authorized to make loans, discount for, and extend other similar credit to System associations and other financing institutions making loans to farmers, ranchers, and producers or harvesters of aquatic products. Under the Act, Agricultural Credit Banks have the lending authorities of both the Banks for Cooperatives and Farm Credit banks. In addition, System institutions may participate in loans with other System institutions. The Farm Credit Leasing Services Corporation is authorized to enter into financial leasing agreements.

(Note: In some schedules of the Call Report, but not in Schedule RC, loans, etc., are combined with accrued interest receivable.)

Lease receivables consist of amounts of receivables established as a result of the institution's financial leasing program. Lease financing transactions have many of the characteristics of other forms of installment loans. A typical lease agreement contains an option providing for purchase of the leased property by the lessee at the expiration of the lease at fair value or at a specified price. Lease receivables must be accounted for in accordance with SFAS No. 13, *Accounting for Leases*, as amended. Report in this item the amounts outstanding of all holdings of accrual loans and leases in accordance with the preceding instructions.

**4(b) Notes receivable from other Farm Credit System institutions.**

This asset consists of the outstanding balance of notes receivables from Farm Credit banks, associations, or other Farm Credit System institutions. Notes receivable consist of the outstanding balance of short- and long-term corporate notes issued under formal legal procedures and secured by the pledge of specific collateral or by the general credit and good faith of the institution. Accordingly, notes receivable represent a contractual receivable and have definite repayment terms and conditions. Notes are generally interest bearing and the amount extended and recorded is the face amount of the note. In some cases, however, notes are issued on a discount basis and the interest is deducted in advance. Report in this item the amounts outstanding of all holdings of accrual notes receivable from other Farm Credit institutions.

**4(c) Other notes receivable.**

Report in this item the amounts outstanding of all holdings of other accrual notes receivable. Do not include in this item notes receivable from Farm Credit banks, associations, or other System institutions which are reported in item 4(b) above, (except for sales contracts and other contractual notes representing the financing of other property owned that are not reported on item 4(d)).

**4(d) Accrual sales contracts.**

Sales contracts consist of sales contracts to finance notes or other similar contractual agreements specifically entered into for the sale of property acquired through foreclosure or otherwise obtained in liquidation of loans. Amounts reported in this item shall represent all holdings of sales contracts outstanding. Sales contracts entered into by the reporting institution that offer interest rates substantially lower than prevailing market rates must be valued and accounted for

in accordance with Accounting Principles Board (APB) Opinion No. 21, *Interest on Receivables and Payables*. APB Opinion No. 21 will require a sales contract bearing an interest rate substantially below market (i.e., not commensurate with the risk involved) to be discounted to its present value. The resulting loss must be recognized at the time of sale and the discount must be amortized over the term of the contract.

**4(e) Nonaccrual loans, etc.**

Nonaccrual loans represent all loans, and contracts and receivables appropriately classified as loans, where there is a reasonable doubt as to collection of future interest accruals. In substance, nonaccrual loans reflect loans where the accrual of interest has been suspended. Amounts include unpaid principal and accrued interest receivable plus any other appropriate amounts. (See definition of nonaccrual loans in 12 CFR 621.6(a).) Report in this item all loans, leases, notes receivable, and sales contracts that are in a nonaccrual status as of the close of business on the report date. Loans, etc., must be placed in nonaccrual status in accordance with GAAP, regulatory requirements, and other guidelines. (See instructions for Schedule RC-F for a definition of nonaccrual loans.)

**4(f) Allowance for losses on loans, etc.**

The allowance for loan losses is an estimate of the amount of potential losses within an institution's loan portfolio at a point in time. The allowance is maintained (added to) by charges against earnings in the form of operating expenses, routinely referred to as "provisions for loan losses." An institution is required to maintain an allowance for loan losses that is considered reasonable and adequate to provide for the inherent risk of losses, and which approximates the current amount of loans that will not be collected. Losses on loans are to be charged off to the allowance when **known** and under no circumstances shall chargeoffs be deferred or amortized over a number of accounting periods.

Report in this item the allowance for losses on loans, leases, notes receivable, sales contracts, and nonaccrual as determined in accordance with SFAS No. 5, *Accounting for Contingencies*, SFAS No. 114, *Accounting by Creditors for Impairment of a Loan* (as amended by SFAS No. 118) and other applicable accounting guidance. **The amount reported here must equal Schedule RI-E, item 6.**

6	<b>Equity investments in other Farm Credit institutions.</b> Report in item 6 the amount of the institution's equity investments in other System institutions. If the reporting institution is an association, the amount reported in item 6 must reconcile to the sum of items 2(a), 2(c), and 2(d) reported in Schedule RC.1, Memoranda. If the reporting institution is a bank, the amount reported in Schedule RC, item 6 must reconcile to the sum of items 2(b), 2(c), and 2(d) reported in Schedule RC.1. If the reporting institution is a Farm Credit institution other than a bank or an association, the amount reported in Schedule RC, item 6 must reconcile to the sum of items 2(c) and 2(d) reported in Schedule RC.1. The equity investments in other System institutions reported in item 6 include, as appropriate for the reporting institution, capital stock, paid-in capital, paid-in surplus, equity in allocated and other surplus, and any allowance for losses on equity investments.
7	<b>Other property owned.</b> Other property owned is the collective name for assets of which a System institution has gained possession, usually as the result of foreclosure or the taking of a deed or title in lieu of foreclosure. System institutions may also gain possession of these properties through abandonment of the property by the borrower or other occurrences. (See instructions for Schedule RC-M for additional information.)

**Liabilities**

**11 Interest bearing liabilities**

**11(a) Systemwide notes and bonds outstanding.**

Report in this item the par or face amount of the institution's participation in Systemwide bonds, medium-term notes, and Systemwide notes that have been issued in accordance with the Act and regulations and are outstanding as of the report date. Also include in this item the amount of any unamortized discount or premium related to the institution's participation in Systemwide bonds, medium-term notes, and Systemwide notes.

\* The accounting for transactions involving the issuance of foreign currency denominated debt (FCDD) shall conform with **the FASB's** SFAS No. 52, *Foreign Currency Translation*, and other authoritative literature governing the accounting for such transactions. SFAS No. 52 generally requires a FCDD transaction to be recorded in U.S. dollars at the exchange rate in effect at the time of issuance. After issuance, any change in the exchange rate is to be reported as an increase or decrease to the amount of debt outstanding. The amount of the increase or decrease is a foreign currency translation gain or loss, which is to be included in income for the period (Schedule RI-B, items 4(a) and 4(b), respectively.) Item No.      Caption and Instructions

---

\* 1              **Loan information.**

Report the following information on the institution's loan portfolio:

\* 1(a)          **Loan types**

Each of the following loan types includes the amount of all loans, notes, and lease receivables that are outstanding (principal and interest), including net participations. **Loans made to similar entities under the authorities of § 613.3300 should be included in the respective category where the “functionally similar” loans are reported.** For example:

- Similar entity transactions entered into by CoBank to entities that are functionally similar to agricultural cooperatives would be included in the category “Loans to Cooperatives” sub-group.
- Similar entity transactions entered into by CoBank to entities that are functionally similar to directly eligible energy borrowers would be reported in the “Energy” category.
- Similar entity transactions entered into by Farm Credit banks or associations to entities that are functionally similar to farm related businesses would be reported in the “Farm related business” sub-group.

**Banks and associations purchasing loan participations from other FCS lenders should report them in the same category as the “lead” FCS lender. Multiple purpose transactions should be reported under the loan type that represents the largest dollar volume of principal outstanding. For Call Reporting purposes, loans are categorized by 9 types, with additional breakout of two categories into sub-groups and a separate category for lease financing. The loan type categories and sub-groups are defined below.**

\* 1a(i)        **Production agriculture**

The production agricultural category is defined to include loans that consist of extensions of credit for mortgages, operating funds, and equipment financing used for agricultural and aquatic production and harvesting purposes.

<b>Item No.</b>	<b>Caption and Instructions</b>
* <b>1a(i)(A)</b>	<b>Real estate mortgage</b> Long term real estate loans and notes receivable made to borrowers pursuant to § 613.3000 and under the authorities of § 614.4030(a), and § 614.4050(a). Generally, the loan purpose is to purchase farm real estate, refinance existing mortgages, or construct various facilities used in operations.
* <b>1a(i)(B)</b>	<b>Production and intermediate term</b> Loans and notes receivable made to borrowers pursuant to § 613.3000 and under the authorities of § 614.4040(a), and § 614.4050(b). Generally, the loan purpose is for operating funds and equipment.
* <b>1a(ii)</b>	<b>Agribusiness</b> Agribusiness loans consist of loans made to cooperatives and their subsidiaries, farm related businesses, and processing and marketing entities.
* <b>1a(ii)(A)</b>	<b>Loans to cooperatives</b> Loans and notes receivable made to borrowers pursuant to § 613.3100(b) and under the authorities of § 614.4010(d). Include loans for any cooperative purpose other than for communication, or energy and water/waste disposal. Institutions that participate with the ACB in loans to cooperatives should report their portion of the loan in this category, if the ACB has reported the loan as a loan to cooperative.
* <b>1a(ii)(B)</b>	<b>Processing and marketing.</b> Loans and notes receivable made to borrowers pursuant to § 613.3010 for any marketing and processing purpose and under the authorities of § 614.4030(a), § 614.4040(a), and §§ 614.4050(a) and (b).
* <b>1a(ii)(C)</b>	<b>Farm related business.</b> Loans and notes receivable made to borrowers pursuant to § 613.3020 for any farm related business purpose and under the authorities of § 614.4030(a), § 614.4040(a), and §§ 614.4050(a) and (b).
* <b>1a(iii)</b>	<b>Communication</b> Loans and notes receivable made to borrowers pursuant to § 613.3100(c) for any telecommunication purposes and under the authorities of § 614.4010(d).
* <b>1a(iv)</b>	<b>Energy</b> Loans and notes receivable made to borrowers pursuant to § 613.3100(c) for any rural electric purpose and under the authorities of § 614.4010(d).

## Schedule RC-B Marketable Investments by Type

---

### General Instructions

This schedule covers your institution's reporting requirements for investments purchased and held pursuant to 12 CFR 615.5140, and 12 CFR 615.5174. You must report such assets as U.S. Government securities, State and local obligations, nongovernmental securities, Federal funds, securities purchased under resale agreements, acceptances of other financial institutions, negotiable certificates of deposit, corporate debt, and asset- and mortgage-backed securities paper, in this schedule. The schedule excludes equity investments in, and any holdings of, direct investments (e.g., certificates of indebtedness, notes receivable) in other Farm Credit System institutions.

Purchases and sales of securities should generally be reported as of the trade date. Trade date accounting is the preferred reporting under the American Institute of Certified Public Accountant's (AICPA) Audit Guide, *Banks and Savings Institutions*. However, the settlement date may be used if the results do not materially differ from the use of the trade date.

Under trade date accounting, the purchase and sale of a security must be recorded on the trade date. When transfer of ownership (settlement) for a purchased security occurs on the trade date, the purchased security is to be reported in the appropriate security item in this schedule based on the trade date. If the transfer of ownership for a purchased security occurs after the trade date (which routinely occurs on the settlement date), the security can be reported in Schedule RC, item 9, "Other Assets," until the transfer of ownership occurs. Conversely, when a security is sold and the transfer of ownership occurs after the trade date, the security can continue to be reported in Schedule RC until the transfer of ownership (settlement) has occurred. However, any gains and losses resulting from a sale must be recognized on the trade date. An institution's obligation for payment on a purchase or sale should be reported in Schedule RC, item 14, "Other liabilities." On the settlement date, disbursement of the payment or receipt of the proceeds will eliminate the respective entry to "Other Liabilities" or "Other Assets" resulting from either a purchase or sale transaction.

The line items in Schedule RC-B call for information to be reported by specific type of marketable investments. All System institutions are to report on items 1 through 12. Only banks are required to report on items 13 through 15. The information required on each type of marketable investment is specified by the two columns of the schedule. Information on this schedule should be reported in accordance with the following instructions.

**Column Instructions**

---

**Column    Caption and Instructions**

---

**A        Amortized cost.**

In column A, report the amortized cost of marketable investments held. For securities purchased at other than par or face value, the amortized cost to be reported is the cost of the securities purchased, adjusted for amortization of premium over the par or face value, and for the accretion of discount from the par or face value. As a general rule, the premium (discount) on each security purchased should be amortized (accreted) over the life of the security; that is, from date of purchase to maturity of the security.

If the amount of the monthly amortization (accretion) for a given security is immaterial, the reporting institution may, at its option, omit the monthly calculation and booking of amortization (accretion). If the reporting institution chooses that option, then, for a security purchased at a premium, the reporting institution shall take the full amount of the amortization of the premium at the time of purchase (and the security will be reported in this schedule at par or face value for the period it remains on the books of the reporting institution); for a security purchased at a discount, the reporting institution shall take the full amount of the discount at the time of maturity or sale of the security (and the security will be reported in this schedule at cost for the period it remains on the books). Amortized cost of investments with derivative hedges should be reported at net.

**B        Fair value.**

Report in this column the fair value of holdings of marketable investments, as authorized by regulation, as of the close of business on the report date.

The fair value of securities held should be determined, to the extent possible, by timely reference to the best available source of current market quotations or other data on relative current values. For example, securities traded on national, regional, or foreign exchanges or in organized over-the-counter markets should be valued at the most recently available quotation in the most active market. Holdings of securities for which no organized market exists should be valued on the basis of a yield curve estimate. Quotations from brokers or others making markets in securities that are neither widely nor actively traded are not acceptable. The fair values of investments with derivative hedges should be reported in accordance with SFAS No. 115, *Accounting for Certain Investments in Debt and Equity Securities*, and with SFAS No. 133, *Accounting for Derivative Instruments and Hedging Activities*, as amended by SFAS No. 138.

- \* **1(a) Treasury securities.**

Report the value of all holdings of U.S. Treasury securities (but not the obligations of U.S. Government agencies and corporations, which are to be reported in item 2). Include all Treasury bills, certificates of indebtedness, notes, and bonds, including those issued under the Separate Trading of Registered Interest and Principal of Securities (STRIPS) program.

However, exclude from this line any detached Treasury security coupons and ex-coupon Treasury securities (other than those issued by the Treasury under the STRIPS program) resulting from stripping by anyone other than the Treasury and held as the result of either the reporting institution's having purchased them from others or having stripped them itself. Holdings of detached Treasury coupons and ex-coupon Treasury securities or the rights to CATS, TIGERS, COUGARS, LIONS, and ETRS (other than STRIPS) are to be reported on line 10, "Other," of this schedule.
- \* **1(b) Agency and other similar obligations.**

Report the value of all holdings of other obligations fully insured or guaranteed by the United States, its agencies, instrumentalities and corporations. This includes debt obligations of government sponsored enterprises and private obligations that are fully insured or guaranteed as to both principal and interest by the United States, its agencies, instrumentalities, or corporations, such as federally insured deposits, loans guaranteed by either the Export-Import Bank of the United States or the Overseas Private Investment Corporation, asset-backed securities secured by loans that the United States Department of Education conditionally guarantees, and certain obligations of the Small Business Administration.
- \* **2 U.S. Government agency securities (excluding mortgage-backed securities).**

Report the value of obligations (including bonds, notes, and debentures) of U.S. Government agencies, such as the Farmers Home Administration (FmHA) or Small Business Administration (SBA), and Government-sponsored corporations, such as the Federal National Mortgage Association or the Federal Home Loan Mortgage Corporation, that are fully guaranteed by the agency or corporation and are held by the reporting institution. Exclude from this line item obligations of agencies and corporations that represent mortgage-backed securities (report these items in line item 6).

\* **3 Municipal obligations.**

\* **3(a) General obligations.**

Report the value of all holdings of general obligations issued by States and political subdivisions in the United States as authorized in 12 CFR 615.5140(a)(3). General obligations of a State or political subdivision mean:

- (1) The full faith and credit obligations of a State, the District of Columbia, the Commonwealth of Puerto Rico, a territory or possession of the United States, or a political subdivision thereof that possesses general powers of taxation, including property taxation; or
- (2) An obligation that is unconditionally guaranteed by an obligor possessing general powers of taxation, including property taxation.

\* **3(b) Revenue bonds.**

Report the value of all holdings of revenue bonds authorized under 12 CFR 615.5140(a)(3). Revenue bond means an obligation of a municipal government that finances a specific project or enterprise, but it is not a full faith and credit obligation. The obligor pays a portion of the revenue generated by the project or enterprise to the bondholders.

\* **4 International and multilateral development bank obligations.**

Report the value of obligations of international and multilateral development banks, such as the International Bank for Reconstruction and Development (World Bank) and other Supranationals.

\* **5 Money market instruments.**

\* **5(a) Federal funds sold.**

Report the dollar amount outstanding of all unsecured lending of immediately available funds (Fed funds "sold") regardless of the nature of the transaction and the contract. Include both those that mature in one business day or that roll over under a continuing contract ("pure Fed funds") and those that mature in more than one business day ("term Fed funds") with a contract that is continuously callable up to 100 days.

Immediately available funds are funds that the borrowing (“purchasing”) bank can either use or dispose of on the same business day that the transaction, giving rise to the receipt or disposal of the funds, is executed.

Exclude from this item any advances that are not immediately available to the reporting institution or any advances that are secured under resale agreements or any similar agreement. Such items are to be reported in item 10, “Other.”

\* **5(b) Negotiable certificates of deposit.**

Report the value of all holdings of negotiable large-denomination time deposits with a specific maturity of 1 year or less, as evidenced by a certificate.

\* **5(c) Banker’s acceptances.**

Report the total amount outstanding of the reporting institution’s holdings of drafts accepted by another financial institution and discounted or otherwise purchased by the reporting institution. Include any participations in acceptances purchased by the reporting institution from other holders of the acceptances; exclude any participations sold by the reporting institution in its holdings of acceptances of other financial institutions.

Exclude from this item any holdings by the reporting institution of its own acceptances; that is, of drafts that it has accepted. Such holdings of its own acceptances are to be reported in Schedule RC, item 4, “Loans, etc.”

\* **5(d) Commercial paper.**

Report the value of all holdings of commercial paper as authorized by 12 CFR 615.5140(a)(4). Commercial paper means any secured or unsecured promissory note of a corporation with a fixed maturity of no more than 270 days.

\* **5(e) Non-callable term Federal funds and Eurodollar time deposits.**

Report the value of all holdings of term Federal funds that are not continuously callable and Eurodollar time deposits that mature within 100 days. A Eurodollar time deposit means a non-negotiable deposit denominated in United States dollars that is issued by an overseas branch of a United States bank or by a foreign bank outside the United States.

\* **5(f) Master notes.**  
Report the total amount outstanding of the reporting institution's investment in Master Notes. Master Notes means interest-bearing unsecured promissory notes that are issued by an institution to investors under a master note agreement. The most common type of master note agreement is a variable-amount note which is a type of open-ended commercial paper that allows the investment and withdrawal of funds on a daily basis and pays a daily interest rate tied to the commercial paper rate.

\* **5(g) Securities purchased under resale agreements.**  
Report the total amount outstanding of advances of funds in the form of purchases of securities under agreements to resell and similar transactions. Include both those that mature in 1 business day or are under a continuing contract and those that mature in more than 1 business day. Include all such transactions whether or not they are immediately available funds. Also include in this item purchases of participations in pools of securities.

Securities sold by the reporting institution under agreements to repurchase are not to be treated as sales in reporting holdings of securities. Securities so "sold" are to be included in the reporting of holdings of securities by the "seller." (Such transactions should be treated as a borrowing by the selling institution and should be reflected in the reporting of a liability in Schedule RC, item 14, "Other liabilities"). Sales of participations in pools of securities held by the reporting institution are to be treated in the same fashion—the securities in which participations have been sold are reported as remaining on the books of the seller and the transaction is reflected as an item in "Other liabilities."

Similarly, securities purchased by the reporting institution under agreements to resell (and purchases of participations in pools of securities) are **not** to be reported under holdings of securities, e.g., in items 1, 2, and 3 of the schedule, but are to be reported in item 5(g).

A resale agreement (also known as a reverse repurchase agreement) is a transaction involving the purchase of assets by one party from another, subject to an agreement by the purchaser to resell the assets at a specified date or in specified circumstances. Such transactions are treated as lending operations and do not affect the reported amounts of the holdings of the securities purchased and resold. Purchases of participations in pools of securities are similarly treated; that is, they are to be reported in this item rather than in one of the other items in this schedule.

**6 Mortgage securities.**

Mortgage securities mean securities that are either:

- (1) Pass-through securities or participation certificates that represent ownership of a fractional undivided interest in a specified pool of residential (excluding home equity loans), multifamily or commercial mortgages, or
- (2) A multiclass security (including collateralized mortgage obligations and real estate mortgage investment conduits) that is backed by a pool of residential, multifamily or commercial real estate mortgages, pass-through mortgage securities, or other multiclass mortgage securities.

**Note:** The distinction between items 6(a) and 6(c) is whether or not the mortgage-backed securities are backed by the full faith and credit of the United States.

**6(a) U.S. Government issued or guaranteed.**

Report the value of all holdings of mortgage securities issued by the Government National Mortgage Association or backed solely by mortgages that are guaranteed as to principal and interest by the full faith and credit of the United States.

Mortgage securities issued by the SBA that are fully guaranteed as to principal and interest by the full faith and credit of the U.S. Government should be reported on line 6(a).

Mortgage Market Enhancement Act of 1984 (SMMEA). SMMEA securities must generally be secured by a first lien on a single parcel of real estate (residential or mixed residential commercial structure) and originated by a qualifying financial institution. Non-agency mortgage securities means securities that are offered and sold pursuant to section 4(5) of the Securities Act of 1933, 15 U.S.C. 77d(5) or are residential mortgage-related securities within the meaning of section 3(a)(41) of the Securities Exchange Act of 1934, 15 U.S.C. 78c(a)(41). Non-Agency mortgage securities do not include securities issued under a private-label that are backed by agency mortgage pass-through securities of participation certificates.

\* **6(e) Commercial mortgage-backed securities.**

Report the value of commercial mortgage-backed securities (CMBS) authorized under 12 CFR 615.5140(a)(5). CMBS means securities that are collateralized by mortgages on commercial properties, such as apartment buildings, shopping centers, office buildings, and hotels.

**7 Asset-backed securities.**

Report the value of all holdings of asset-backed securities (ABS). ABS mean investment securities that provide for ownership of a fractional undivided interest or collateral interest in specific assets of a trust that are sold and traded in the capital markets. ABS exclude mortgage securities that are defined in 12 CFR 615.5131(i).

**8 Corporate debt securities.**

Report the value of all holdings of corporate debt authorized under 12 CFR 615.5140(a)(7). Corporate debt means a debt instrument setting forth the obligation of the issuer to satisfy the terms of the agreement. Corporate bonds are generally classified by issuer type and include, public utilities, transportations, industrials, banks and finance companies and Yankee issues.

**9 Diversified investment funds.**

Report the value of all holdings in diversified investment funds (e.g., mutual funds, money market mutual funds, or bond funds). Include all shares of investment companies registered under section 8 of the Investment Company Act of 1940. The investment company may be a closed-end or open-end investment company. The portfolio of the investment company must consist solely of eligible investments authorized by 12 CFR 615.5140.

Do not, in this item, take into account the general collateralization against indebtedness (required by FCA regulation) in Schedule RC-J, Collateral Position. The pledging of securities owned by the reporting institution shall not affect the amount of securities held that is to be reported on the balance sheet and on this schedule.
- 13 Structured notes (bank only).**  
Report the institution’s investment in structured notes that are included in this schedule. “Structured notes” are defined as investments in debt securities (other than mortgage-backed securities) that have complex derivative-based features that make it hard to determine market values for the investments. Such complex features can also reduce their liquidity during periods of fluctuating interest rates. Often, the cash flow characteristics (coupon rate, redemption amount, or stated maturity) of structured notes depend upon one or more indices and/or have imbedded forwards or options. Such embedded forwards and options in the structure of the notes allow underwriters to create an unlimited number of risk/reward profiles and to customize risk characteristics to fit an investor's desired risk exposure. Step-up bonds, Index Amortizing Notes, Dual Index Notes, De-leveraged Bonds, Range Bonds, and Inverse Floaters are some of the common names and structures. These instruments can have very volatile reactions to changes in interest rates. “Plain vanilla” types of investments that simply have their

interest rate tied to a nationally known index (e.g., LIBOR plus 15 basis points) would not be considered structured notes.

\* **14 Dollar amount of interest expense on debt funding investments for the quarter (bank only).**

Report the dollar amount of interest expense incurred by the institution to fund investments (i.e., investments in securities as authorized under 12 CFR 610.5132 of the regulations) held for the reporting period.

FCA recognizes that methodologies for calculating the amount of interest expense vary between individual institutions. Some institutions, for example, allocate actual debt outstanding as the cost of funds, while others use a hypothetical debt cost or transfer pricing cost based on funding instruments available on the date the investments are made. In addition, some institutions allocate a portion of capital to fund investments while others consider investments to be funded entirely by debt. FCA is not requiring a particular methodology for calculating the interest expense amount. Any reasonable method used by the institution will be acceptable. However, data reported should be the same as that reported to the institution's ALCO, senior management, and board of directors.

\* **15 Average dollar amount of debt funding investments outstanding for the quarter (bank only).**

Enter the average dollar amount of debt outstanding for the quarter that the institution assumes was used for funding investments for the reporting period. For institutions that do not allocate a portion of capital for funding investments, the average debt should equal the average amount of investments reported for the period in Schedule RC-G, item 4.

Note: FCA recognizes that the dollar amount of interest expense on debt funding investments (item 14) and the average dollar amount of outstanding debt funding investments for the quarter (item 15) are dependent upon the methodology used by individual institutions. Rather than comparability between institutions, however, FCA is interested in consistency and comparability for individual institutions from one reporting period to the next. FCA requests that each institution attach an addendum with a brief description of the methodology used to calculate items 14 and 15 when the calculation methodology materially changes from one reporting period to the next.

**Schedule RC-F**  
**Performance of Loans, Notes, Sales Contracts, and Leases**

---

**General Instructions and Definitions**

This schedule covers the information required from reporting institutions on their past due and nonaccrual loans, notes receivable, sales contracts, and lease receivables, including accrued interest. The reporting of loans, etc., in this schedule is to be before any deduction for allowances for loan losses.

In the schedule, total loans, (principal and accrued interest receivable) are to be reported in the following classifications:

**Accruing**  
**Formally restructured accruing**  
**Nonaccrual:**  
    **Cash basis**  
    **Other**

For each of these loan classifications, the schedule requires information to be reported on past due status as follows:

**Not past due or past due less than 30 days**  
**Past due 30 through 89 days**  
**Past due 90 days or more**

- \* In the schedule Loan Performance by Loan Type, total loans (principal and accrued interest receivable) are to be reported by loan types (defined in RC.1) in the following classifications:

**Accruing**  
**Accruing—past due 90 days or more**  
**Formally restructured accruing**  
**Nonaccrual:**  
    **Cash basis**  
    **Other**

In classifying and reporting loans in any line item of this table, the amount of accrued interest receivable on any loan shall be reported along with the loan. For a nonaccrual loan, this would include the amount of interest accrued (and unpaid) up to the time the loan was shifted to a nonaccrual status, except where the accrual of interest in the calendar year of such a shift was reversed and backed out of net income rather than being carried as accrued interest in nonaccrual status.

\* **Change made effective March 15, 2005.**

## Schedule RC-F Performance of Loans, Notes, Sales Contracts, and Leases (cont'd)

---

- \* In the schedule Loan Classifications by Loan Type, total loans (principal and accrued interest receivable) by loan types, as defined in RC.1, are to be reported by credit classification.

### Definitions

This section provides the definitions of the terms used above that are necessary for the proper classification and reporting of loans for this schedule. The definitions, for the most part, are taken from FCA Regulations (12 CFR Part 621).

**Past due.** For purposes of this schedule, a loan is past due when it is contractually past due. A loan is considered contractually past due, under regulation, when any principal repayment or interest payment required by the loan instrument is not received by the lender on or before the due date.

Loans payable in more than one payment, whether in regular installments or otherwise, are past due as of the first day a scheduled, required, or expected payment of principal, interest, or combination of the two due on that day was not received by the lender on or before that day. The entire outstanding principal (including accrued interest where appropriate), not just the amount of the delinquent payment, must be classified and reported as past due.

Demand loans and loans on which a call provision has been activated are past due as of the date that any portion, or all, of the outstanding principal and/or accrued interest has been demanded or otherwise called and payment has not been received by the lender.

A loan classified as past due shall remain so classified until it is formally restructured or until the entire amount delinquent (including principal amounts, accrued interest, and penalty interest incurred by virtue of past due status) is collected or otherwise discharged in full.

**Nonaccrual loans.** A loan shall be considered and reported as a nonaccrual loan if it meets any of the following conditions:

- (1) Collection of any amount of outstanding principal and all past and future interest accruals, considered over the full term of the asset, is not expected; or
- (2) Any portion of the loan has been charged off, except in cases where the prior chargeoff was taken as part of a formal restructuring of the loan; or
- (3) The loan is 90 days past due and is not both adequately secured and in process of collection.

\* Change made effective March 15, 2005.

**Schedule RC-F**  
**Performance of Loans, Notes, Sales Contracts, and Leases (cont'd)**

---

A loan is considered adequately secured if it is secured by real or personal property having a net realizable value sufficient to discharge the debt in full; or it is guaranteed by a financially responsible party in an amount sufficient to discharge the debt in full.

A loan is considered in process of collection only if collection efforts are proceeding in due course and, based on a probable and specific event, are expected to result in the prompt repayment of the debt for its restoration to current status. There must be documented evidence that collection in full of amounts due and unpaid is expected to occur within a reasonable time period, not to exceed 180 days from the date that payment was due. The commencement of collection efforts through legal action, including ongoing workouts and reamortizations, do not, in and of themselves, provide sufficient cause to keep a loan out of nonaccrual status. If full collection of the debt or its restoration to current status is dependent upon completion of any action by the borrower, the institution must obtain the borrower's written agreement to complete all such actions by the specific dates set forth in agreement.

Nonaccrual loans may, at times, be maintained on a cash basis. Generally, cash basis refers to the recognition of interest income from cash payments received on certain nonaccrual loans for which the collectibility of the recorded investment in the loan is no longer in doubt.

Cash payments on nonaccrual loans may be recognized if all the following characteristics are met at the time the payments are received:

- (i) The loan does not have a remaining unrecovered prior chargeoff associated with it, except in cases where a chargeoff was taken prior to a formal debt restructuring;
- (ii) The payment received is from a source detailed in the plan of collection; and
- (iii) The loan, after receipt of the payment, is not contractually past due 90 days and is not expected to again become 90 days past due, or a repayment pattern has been established that reasonably demonstrates future repayment capacity.

**Formally restructured accruing loans.** These are loans that are “troubled debt restructurings,” as defined in SFAS No. 15, *Accounting by Debtors and Creditors for Troubled Debt Restructurings*.

After a loan is classified and reported as “formally restructured accruing,” it shall continue to be reported as such in this schedule until it is fully paid off or otherwise discharged, or it once again becomes severely past due under its restructured terms as to be appropriately classified as “nonaccrual” or until such time as the terms are substantially equivalent to terms on which loans with comparable risks are being made. In the latter case, the loan is to be reported as “accruing.”

**Schedule RC-F**  
**Performance of Loans, Notes, Sales Contracts, and Leases (cont'd)**

---

In reporting a “formally restructured accruing loan,” performance of the restructured loan should be measured since the time of restructuring and with respect to its restructured terms and conditions, not with reference to its performance prior to the restructuring. For example, a loan that was over 90 days past due prior to restructuring (and thus at that time to be reported in column C) would, after restructuring, be reported in column A as not past due as long as it performed in compliance with the restructured terms.

**Accruing loans.** All loans not properly identifiable as “nonaccrual” or “formally restructured accruing” as defined in these instructions, are accruing loans.

**Rule of aggregation.** When one loan to a borrower is placed in nonaccrual, an institution must immediately evaluate whether its other loans to that borrower, or related borrowers, should also be placed in nonaccrual status. All loans on which a borrowing entity, or a component of a borrowing entity, is primarily obligated to the reporting institution shall be considered as one loan, unless a review of all pertinent facts supports a reasonable determination that a particular loan constitutes an independent credit risk and such determination is adequately documented in the loan file.

This means that, if the evaluation required above results in a determination that the borrower’s other loans with the institution do not represent an independent credit risk, and full collection of such loans is not expected, then all of the loans must be aggregated and classified as nonaccrual.

Report all of the reporting institution’s loans, notes receivable, sales contracts, and lease receivables, including accrued interest receivable on these, in the appropriate line-items and columns of the schedule as determined by classification in accordance with the above definitions and instructions. Report in column D the sum of columns A, B, and C for each of the items 1 through 4. Report in item 4 the sum of items 1 through 3 for each of columns A through D. **The amount reported in item 4, for column D, must equal the sum of Schedule RC, items 4(a), 4(b), 4(c), 4(d), 4(e), 5(a), 5(b), 5(c), and 5(d). In addition, the total amounts for each category reported in column D, items 1 through 3, must be reconciled to the sum total of principal and accrued interest for all loans reported in Data Element No. 26, “Performance Status,” in the Loan Account Reporting System (LARS) in each corresponding category. The reconciliation must be included in an addendum to the institution’s Call Report submission.**

The reconciliation must be included in an addendum to the institution's Call Report submission.**

\* **LOAN PERFORMANCE BY LOAN TYPE**

**Column/Line-Item Instructions**

---

Report all the reporting institution's loans, notes receivable, and lease receivables, including accrued interest receivable on these, for each loan type, as defined in RC.1, in the appropriate columns of the schedule, in accordance with the definitions above. Report in Column F the sum of columns A thru E for each line item 1 thru 10. Report in item 11 the sum of items 1 thru 10 for each column A thru E. The amount reported for item 11 in column F must equal the sum of Schedule RC, items 4(a) thru 4(e) plus items 5(a) thru 5(d).

\* **LOAN CLASSIFICATIONS BY LOAN TYPE**

**Credit classifications.**

System institutions use asset quality classifications to identify and disclose the degree of risk in the loan portfolio and other assets. The classification system predominately used by System institutions is the Uniform Classification System (UCS). UCS credit classifications are assigned on the basis of certain risk factors and include the following five categories: Acceptable, Other Assets Especially Mentioned, Substandard, Doubtful, and Loss. Assets classified Substandard, Doubtful, and Loss are considered adversely classified assets; assets classified less than Fully Acceptable are considered criticized assets. Assets may also be assigned more than one classification when portions of the asset clearly meet different classification standards. A detailed description and application of each classification category can be found in the *FCA Examination Manual*.

Each institution must report the following information with respect to credit quality of its loan portfolio and other classified assets. For purposes of this report, an institution should align its credit classification categories as is necessary to best fit within the framework of the UCS. For most System institutions, loans (principal and interest) are the only assets assigned credit classifications. However, there are a number of System institutions that have other types of assets that are routinely assigned credit classifications. For instance, many institutions have collateral

- \* A            Acceptable**  
Report the institution's total amount of loans classified as Acceptable at the report date for each loan type on lines 1 thru 10 using the definitions in RC.1. For reporting purposes, any loans not yet classified as of the report date should be included with those classified as Acceptable. All other acceptable assets, other than loans, should be reported on line 11.
- \* B            Other Assets Especially Mentioned**  
Report the institution's total amount of loans classified as Other Assets Especially Mentioned at the report date for each loan type on lines 1 thru 10 using the definitions in RC.1. All other assets classified as Other Assets Especially Mentioned should be reported on line 11.
- \* C            Substandard**  
Report the institution's total amount of loans classified as Substandard at the report date for each loan type on lines 1 thru 10 using the definitions in RC.1. All other assets classified Substandard should be reported on line 11.
- \* D            Doubtful**  
Report the institution's total amount of loans classified as Doubtful at the report date for each loan type on lines 1 thru 10 using the definitions in RC.1. All other assets classified Doubtful should be reported on line 11.
- \* E            Loss**  
Report the institution's total amount of loans classified as Loss at the report date that have not been charged off for each loan type on lines 1 thru 10 using the definitions in RC.1. All other assets classified Loss should be reported on line 11.
- \* F            Total**  
Report in Column F the sum of columns A thru E for items 1 through 12. The aggregate of classified assets reported on this line item that represent loans (items 1 thru 10) should generally agree with the sum of amounts reported in Schedule RC, items 4(a) through 4(e) plus 5(a) through 5(d). ## Schedule RC-G Average Daily Amounts for the Quarter

---

### General Instructions

This schedule requires the reporting of daily averages over the reporting quarter period for selected groupings and detail of assets, liabilities, and net worth.

For items on the schedule, report the averages of the balances called for as of the close of business for each business day for the calendar quarter. Include nonbusiness days (e.g., weekends or holidays) in the computation of the average daily balance. Accordingly, the computation will be computed based on the actual days in each quarter (e.g., the sum of the asset item's ending day balance for each actual day in the quarter divided by the actual number of days will equal the average daily balance for the asset item).

In general, the main focus of the schedule is on interest-earning assets and interest-bearing liabilities. However, item 6, "Nonaccrual loans," is noninterest earning; item 13, "Total assets," and item 18, "Total liabilities," include both noninterest-earning and noninterest-bearing components; and item 22, "Total net worth," is noninterest bearing.

### Line-Item Instructions

For each of the items described below, report the appropriate average balance.

## Schedule RC-H Reconciliation of Net Worth

---

### General Instructions

\* This schedule covers the detailed reporting of the net worth section of the institution's balance sheet. The schedule is divided into **four** parts consisting of a section on capital stock, a section on earned surplus, a section on accumulated other comprehensive income, **and a section with memoranda items**. The capital stock section requires all institutions to report the par amount of capital stock, participation certificates, preferred stock, the book amount of paid-in capital, and total net capital stock.

The earned surplus section requires all institutions to report the book amount of allocated surplus, undistributed earnings (unallocated surplus), and total earned surplus. The accumulated other comprehensive income section requires all institutions to report the book amount of accumulated other comprehensive income and total net worth. **The memoranda section requires all institutions to report allocated equities of a bank allotted to others and allocated equities included in core surplus.**

\*

Each reporting institution should review its current bylaws that pertain to the institution's net worth. Even though each reporting institution's bylaws will vary regarding the composition of its net worth, every effort has been made to provide a uniform reporting format that can accommodate different types of net worth structures. In the event a reporting institution does not believe the structure of its net worth, or a specific category, conforms to the structure provided by these instructions, the institution is required to immediately contact the Compliance Officer, Office of Policy and Analysis, for further interpretive instructions and/or clarification. Each institution is required to complete this Schedule RC-H, Reconciliation of Net Worth.

Each reporting institution should also review section 4.9A, "Protection of Borrower Stock," of the Act before beginning to complete this schedule. As referenced above, the amounts reported on this schedule require the institution to differentiate between capital stock, participation certificates, and allocated surplus that is protected under section 4.9A and those amounts that are not protected under this section of the Act.

At the end of the fiscal year, many institutions distribute earnings to their stockholders in the form of patronage. These distributions of patronage are routinely made through allocations of capital stock, and allocated equities and payments in cash. As in all areas of the Call Report, accrual accounting should be followed. Therefore, if it is the institution's intention (or where it is imposed by bylaws) to distribute earnings (i.e., patronage, dividends) at the end of the fiscal year, accruals for such distributions must be made in interim reports when they are considered material.

<b>* 5(c)</b>	<b>Other (explain in an addendum).</b> Report the par amount of other classes of preferred stock outstanding that are not reportable in line items 5(a) and 5(b), including perpetual and term preferred stock held by an FCS bank or association or others that is included in net worth in accordance with Generally Accepted Accounting Principles. The addendum should identify the class of the preferred stock and list the par amount held by each investor, if the investor is identifiable.
<b>6</b>	<b>Paid-in capital.</b> Report the amount of outstanding paid-in capital, surplus, etc. (other than capital stock) that either has been provided by member-borrowers, Farm Credit institutions, and others or has been accumulated by other transactions that are appropriately accounted for as paid-in capital. The most common transaction resulting in paid-in capital is amounts paid in excess of par for the institution's capital stock when issued. Amounts representing financial assistance from other Farm Credit institutions in the form of paid-in surplus are to be reported on this line.
<b>* 7</b>	<b>Total.</b> Report the total amount of capital stock outstanding. The total reported should be the sum of items 1, 2(c), 3, 4, 5(a) to 5(c) and 6. The total must equal Schedule RC, item 16.

**Earned Surplus**

<b>* 8</b>	<b>Allocated surplus—protected.</b> Report the amount of earned surplus outstanding that has been specifically allocated to the reporting institution's holders of capital stock and/or participation certificates (in accordance with the institution's bylaws). The amount reported is to include outstanding allocations of equity resulting from patronage distributions. The amount reported in this item is to be protected under section 4.9A, "Protection of Borrower Stock," of the Act.

## Schedule RC-I Commitments, Contingencies, and Other Items

---

### General Instructions

Report the following selected commitments, contingencies, and other items that are not reported as part of the balance sheet and income statement.

**Items 3(e)(i) and 5(a) are to be reported only by banks. All other items must be reported by the reporting institutions, as applicable.**

| <b>1</b> | <b>Standby letters of credit.</b><br>Report, in subitem (a) or (b), as appropriate, the amount outstanding and unused as of the report date of all standby letters of credit (and all legally binding commitments to issue standby letters of credit) issued by the reporting institution. |
|----------|--|

A standby letter of credit is a letter of credit that:

- (a) Represents an obligation on the part of the issuing institution to a designated third party (the beneficiary) contingent upon the failure of the issuing institution's customer (the account party) to perform under the terms of the underlying contract with the beneficiary; or
- (b) Obligates the issuing institution to guarantee or stand as surety for the benefit of a third party to the extent permitted by law or regulation.

The underlying contract may entail either financial or nonfinancial undertakings of the account party with the beneficiary. The underlying contract may involve such things as the customer's payment of commercial credit, completion of a construction contract, or repayment of the account party's obligation to the beneficiary.

Under the terms of a standby letter, as a general rule, the beneficiary is authorized to draw drafts on the issuing institution (up to a stipulated amount and with specified terms and conditions) only when the underlying event fails to occur as intended.

The reporting institution must report in item 1 the full amount outstanding and unused of the standby letters of credit issued where the reporting issuing institution is obligated to pay the full amount of any draft drawn, even if it has conveyed

participations to others. The gross amount must be reported even though under the terms of the standby letter the participating institutions have an obligation to partially or wholly reimburse the issuing institution either directly in cash or through a participation in a loan to the account party.

The reporting institution must also report in item 1 the full amount of its commitment under any participations (such as those described in the previous paragraph) conveyed to it in standby letters without deducting any amounts that it may have participated to others.

For syndicated standby letters of credit in which each institution has a direct obligation to the beneficiary, each institution must report only its share in the syndication. Similarly, if several institutions participate in the issuance of a standby letter of credit under a bona fide binding agreement that provides that each participant, regardless of any event, shall be liable only up to a certain percentage or to a certain amount and the beneficiary has been so advised and has agreed, then each participating institution shall report only its proportional share of the total standby letter of credit.

**1(a) U.S. addressees.**

Report in this subitem the amount of standby letters of credit (as defined in item 1) issued for account parties with U.S. addresses (i.e., domiciled in the United States). Note that the distinction between U.S. and non-U.S. addressees is determined by the domicile of the account party (the institution's customer) not the domicile of the beneficiary.

**1(b) Non-U.S. addressees.**

Report in this subitem the amount of standby letters of credit (as defined in item 1) issued for account parties with non-U.S. addresses (i.e., domiciled outside the United States).

**2 Commercial and other letters of credit.**

Report in this item the amount outstanding and unused as of the report date of commercial and other letters of credit issued or confirmed by the reporting institution.

A commercial letter of credit is a document specifically related to trade or commerce issued by a financial institution on behalf of its customer (the account party) authorizing a third party (the beneficiary) to draw drafts on the issuing institution up to a stipulated amount and with specified terms and conditions upon consummation

of the transaction underlying the letter. The letter of credit is a conditional commitment on the part of the issuing institution to provide payments on such drafts drawn in accordance with the terms of the document.

**Gross amounts (notional) of derivatives.**

Report in the appropriate subitem the gross par value (for futures, forwards, and option contracts) or notional amount (for forward rate agreements and swaps), as appropriate, of all derivatives.

The notional amount or par value to be reported for derivative or synthetic contract with a multiplier component is the contract's effective notional amount or par value. For example, a swap contract with a stated notional amount of \$1,000,000 whose terms call for quarterly settlement of the difference between 5 percent and LIBOR multiplied by 10 has an effective notional amount of \$10,000,000.

Derivative products used in the System are typically characterized as "Interest Rate Contracts" related to an interest-bearing financial instrument or whose cash flows are determined by referencing interest rates or another interest rate contract (e.g., an option on a futures contract to purchase a Treasury bill). These contracts are generally used to adjust an institution's interest rate risk exposure. Interest rate contracts include interest rate futures, single currency interest rate swaps, basis swaps, forward rate agreements, and interest rate options, including caps, floors, collars, and corridors.

In addition to "Interest Rate Contracts" as defined above, derivative contracts can include foreign exchange contracts, commodity contracts, or equity contracts. If such contracts are included, institutions must attach an addendum explaining such usage.

No netting of contracts is permitted. Do not net: (1) obligations of the reporting entity to purchase from third parties against the bank's obligation to sell to third parties; (2) written options against purchased options; or (3) contracts subject to bilateral netting agreements.

Do not report transactions involving (1) "regular way" settlements, that is, cash market transactions that are settled in one business day for U.S. Treasury and Government agency and corporation securities (other than Government-guaranteed mortgage pass-through certificates); (2) 5 business days for municipal and corporate securities; and (3) up to 60 days for mortgage-backed securities. *	Associations must explain any derivative entries in an addendum. The addendum must describe each type of derivative reported by the counterparty. For each item listed in the addendum, the association should also report the term, market value, duration, and purpose of the derivative.
<b>3(a)</b>	<b>Futures contracts.</b> Futures contracts represent agreements for delayed delivery of financial instruments or commodities in which the buyer agrees to purchase and the seller agrees to deliver, at a specified future date, a specified instrument at a specified price or yield. Futures contracts are standardized and are traded on organized exchanges that act as the counterparty to each contract. Report the aggregate par value of futures contracts that have been entered into by the reporting institution and are outstanding (i.e., open contracts) as of the report date.  Contracts are outstanding (i.e., open) until they have been canceled by acquisition or delivery of the underlying financial instrument or by offset. Offset is the liquidating of a purchase of futures through the sale of an equal number of contracts of the same delivery month on the same underlying instrument, or the covering of a short sale of futures through the purchase of a equal number of contracts of the same delivery month on the same underlying instrument.  Some of the more common interest rate futures contracts include futures on 90-day U.S. Treasury bills; 12-year GNMA pass-through securities; and 2-, 4-, and 10-year U.S. Treasury notes.  <b>Note:</b> Foreign exchange, commodity, and other futures, other than for interest rate risk, should also be included in this subitem. If such contracts are included, institutions must attach an addendum explaining such usage.
<b>3(b)</b>	<b>Forward contracts.</b> Forward contracts represent agreements for delayed delivery of financial instruments or commodities in which the buyer agrees to purchase and the seller agrees to deliver, at a specified future date, a specified instrument or commodity at a specified price or yield. aggregate par value of forward contracts that have been entered into by the reporting institution and are outstanding (i.e., open contracts) as of the report date.

Forward contracts are outstanding (i.e., open) until they have been canceled by acquisition or delivery of the underlying financial instruments or settled in cash. Such contracts can only be terminated, other than by receipt of the underlying asset, by agreement of both buyer and seller.

It is anticipated that the risk characteristic of forward contracts used by System institutions is interest rate risk wherein the institution is committing to purchase or sell financial instruments. If forward contracts reported in this subitem have other risk characteristics (e.g., foreign exchange risks, commodity risks, and other risks), institutions must report such usage in an addendum.

**3(c) Exchange traded option contracts.**

Options contracts convey either the right or the obligation, depending upon whether the reporting institution is the purchaser or the writer, respectively, to buy or sell a financial instrument or commodity at a specified price by a specified future date. Some options are traded on organized exchanges.

The buyer of an option contract has, for compensation (such as a fee or premium), acquired the right (or option) to sell to, or purchase from, another party some financial instrument or commodity at a stated price on a specified future date. The seller of the contract has, for such compensation, become obligated to purchase or sell the financial instrument or commodity at the option of the buyer of the contract. A put option contract obligates the seller of the contract to purchase some financial instrument or commodity at the option of the buyer of the contract. A call option contract obligates the seller of the contract to sell some financial instrument or commodity at the option of the buyer of the contract.

It is anticipated that the risk characteristic of exchange-traded options used by System institutions is interest rate risk wherein the institution is committing to purchase or sell financial instruments. If options reported in this subitem have other risk characteristics (e.g., foreign exchange risks, commodity risks, and other risks), institutions must describe such usage in an addendum.

**3(c)(i) Written options.**

Report in this subitem the aggregate par value of the financial instruments or commodities that the reporting institution has, for compensation (such as a fee or

premium), obligated itself to either purchase or sell under exchange-traded option contracts that are outstanding as of the report date. For exchange-traded option contracts obligating the reporting institution to either purchase or sell an interest rate futures contract, report the par value of the financial instrument underlying the futures contract. An example of such a contract is a Chicago Board Options Exchange option on the 13-week Treasury bill rate.

**Note:** Attach an addendum describing any options that involve foreign exchange, commodity, or risk characteristics other than interest rate risk.

**3(c)(ii) Purchased options.**

Report in this subitem the aggregate par value of the financial instruments or commodities that the reporting institution has, for a fee or premium, purchased the right to either purchase or sell under exchange-traded option contracts that are outstanding as of the report date. For exchange-traded option contracts giving the reporting institution the right to either purchase or sell an interest rate futures contract, report the par value of the financial instrument underlying the futures contract. An example of such a contract is a Chicago Board Options Exchange option on the 13-week Treasury bill rate.

**Note:** Attach an addendum describing any options that involve foreign exchange, commodity, or risk characteristics other than interest rate risk.

**3(d) Over the counter option contracts.**

Options contracts convey either the right or the obligation, depending upon whether the reporting institution is the purchaser or the writer, respectively, to buy or sell a financial instrument or commodity at a specified price by a specified future date. Options can be written to meet the specialized needs of the counterparties to the transactions. These customized option contracts are known as over-the-counter (OTC) options. Thus, OTC option contracts include all option contracts not traded on an organized exchange.

The buyer of an option contract has, for compensation (such as a fee or premium), acquired the right (or option) to sell to, or purchase from, another party some financial instrument or commodity at a stated price on a specified future date. The seller of the contract has, for such compensation, become obligated to purchase or sell the financial instrument or commodity at the option of the buyer of the contract. A put option contract obligates the seller of the contract to purchase some financial instrument or commodity at the option of the buyer of the contract. A call option

contract obligates the seller of the contract to sell some financial instrument or commodity at the option of the buyer of the contract.

In addition, swaptions (i.e., options to enter into a swap contract) and contracts known as caps, floors, collars, and corridors should be reported as options.

Options, such as a call feature, that are embedded in loans, securities, and other on-balance sheet assets and liabilities are not to be reported in Schedule RC-I. Commitments to lend are not considered options for purposes of Schedule RC-I, item 3, but should be reported in Schedule RC-I, item 6.

It is anticipated that the risk characteristic of OTC options used by System institutions is interest rate risk wherein the institution is committing to purchase or sell financial instruments. If options reported in this subitem have other risk characteristics (e.g., foreign exchange risks, commodity risks, and other risks), institutions should describe such usage in an addendum.

**3(d)(i) Written options.**

Report in this subitem the aggregate par value of the financial instruments or commodities that the reporting institution has, for compensation (such as a fee or premium), obligated itself to either purchase or sell under OTC option contracts that are outstanding as of the report date. Also include the aggregate notional amount for written caps, floors, and swaptions and for the written portion of collars and corridors.

Include in this item the notional principal amount for interest rate caps and floors that the reporting bank sells. For collars and corridors, report a notional amount for the written portion of the contract in Schedule RC-I, item 3(d)(i) and for the purchased portion of the contract in Schedule RC-I, item 3(d)(ii). An interest rate collar, therefore, should be reported as the sale of a floor and the purchase of a cap.

Caps and floors are often referred to as a series of options. However, the notional amounts reported should not be “grossed up.” The notional amount reported for caps and floors is the principal amount upon which payments would be based as of the reporting date if rates had risen above or fallen below the strike price.

**Note:** Attach an addendum describing any options that involve foreign exchange, commodity, or risk characteristics other than interest rate risk.

<b>Item No.</b>	<b>Caption and Instructions</b>
<b>3(d)(ii)</b>	<p><b>Purchased options.</b></p> <p>Report in this subitem the aggregate par value of the financial instruments or commodities that the reporting institution has, for compensation (such as a fee or premium), purchased the right to either purchase or sell under OTC option contracts that are outstanding as of the report date. Also include the aggregate notional amount for purchased caps, floors, and swaptions and for the purchased portion of collars and corridors.</p> <p>Include in this item the notional principal amount for interest rate caps and floors that the reporting bank purchases. For collars and corridors, report a notional amount for the written portion of the contract in Schedule RC-I, item 3(d)(i) and for the purchased portion of the contract in Schedule RC-I, item 3(d)(ii). An interest rate collar, therefore, should be reported as the sale of a floor and the purchase of a cap.</p> <p>Caps and floors are often referred to as a series of options. However, the notional amounts reported should not be “grossed up.” The notional amount reported for a cap and floor is the principal amount upon which payments would be based as of the reporting date if rates had risen above or fallen below the strike price.</p> <p><b>Note:</b> Attach an addendum describing any options that involve foreign exchange, commodity, or risk characteristics other than interest rate risk.</p>
<b>3(e)</b>	<p><b>Swaps.</b></p> <p>Swaps are transactions in which two parties agree to exchange payment streams based on a specified notional amount for a specified period. Forward starting swap contracts should be reported as swaps. The notional amount of a swap is the underlying principal amount upon which the exchange of interest, foreign exchange, or other income or expense is based. The notional amount to be reported for a swap contract with a multiplier component is the contract’s effective notional amount.</p>
<b>3(e)(i)</b>	<p><b>Cross-currency swaps.</b></p> <p>Report the notational amount of all cross-currency swaps executed in response to the issuance of foreign currency denominated debt as part of the System’s Global Debt Program.</p>

<b>Item No.</b>	<b>Caption and Instructions</b>
* 3(e)(iii)	<b>Other swaps.</b> Report the notional amount of all other swaps not included in subitems i or ii.
3(f)	<b>Total notional amount of derivative contracts.</b> Report the total of items 3a through 3e.
3(g)	<b>Collateralized derivative and other synthetic contracts.</b> Report the total amount from item 3(f) that is subject to collateral agreements, whether or not collateral is currently posted by either party.
4	<b>Gross fair values of derivative and other synthetic contracts.</b> Report in the appropriate subitem below the fair (market) value of all derivative and other synthetic contracts reported on Schedule RC-I, item 3(f). Report the gross positive and gross negative fair values separately. Other than netting the pay and receive side of individual swap contracts with bilateral netting agreements, no other netting is permitted. Therefore, do not net (1) obligations of the reporting institution to buy against the institution's obligations to sell; (2) written options against purchased options; or (3) positive fair values against negative fair values.  Report as fair value the amount at which a contract could be exchanged in a current transaction between willing parties, other than a forced liquidation sale. If a quoted market price is available for a contract, the fair value to be reported for that contract is the product of the number of trading units of the contract multiplied by that market price. If a quoted market price is not available, report the bank's best estimate of fair value based on the quoted market price of a similar contract or on valuation techniques such as discounted cash flows.  For purposes of item 4, institutions should determine the fair value of its derivative and synthetic contracts in the same manner that it determines fair value of these contracts for other financial reporting purposes. For example, for interest rate swaps, fair value may include accrued net settlement amounts which have not been paid or received. Otherwise, do not combine, aggregate, or net the reported fair value with the fair or book value of any other derivative asset or liability.
4(a)	<b>Gross positive fair values.</b> Report the total of the gross positive fair value of contracts included in RC-I, item 3f.

This line item is applicable only to System banks (ACBs and FCBs).</p>
<b>5(b)</b>	<p><b>Unrecorded liability for obligations for other post-retirement benefits.</b>            Report in this item the amount of any remaining unrecognized transition obligations determined as a result of applying the provisions SFAS No. 106, <i>Employers’ Accounting for Post-retirement Benefits Other Than Pensions</i>.</p>
<b>6</b>	<p><b>Commitments to extend credit or to participate in arrangements to extend credit.</b>            Report in subitems 6(a) or 6(b), as appropriate, the unused portions of commitments that, as of the close of business on the report date, obligate the reporting institution to extend credit in the form of loans, notes, sales contracts, and lease receivables or in the form of participations in such extensions of credit.</p> <p>Commitment means a legally binding obligation to extend credit, enter into lease financing, purchase or participate in loans or leases, or pay the obligation of another, which becomes effective at the time such commitment is made, as set forth in 12 CFR 614.4350(b).</p> <p>In the case of commitments for syndicated loans or participated loans, report only the reporting institution’s proportional share of the commitment.</p> <p>Include loan proceeds that the reporting institution is obligated to advance, such as loan draws, construction progress payments, seasonal or living advances to farmers under prearranged lines of credit, rotating or revolving credit arrangements, etc.</p>

## Schedule RC-J Collateral Position

---

### \* General Instructions

Schedule RC-J is applicable to banks only. The schedule includes the following sections:

**Available Collateral** - contains the various components of available collateral as defined by 12 CFR 615.5050;

**Net Collateral** - contains the adjustments to available collateral to arrive at net collateral as defined by 12 CFR 615.5301(c);

**Indebtedness Requiring Collateralization** - contains the components of indebtedness requiring collateralization by 12 CFR 615.5050;

**Collateral Positions** - contains the amount of excess collateral (as defined by 12 CFR 615.5050); net collateral amount (as defined by 12 CFR 615.5301 and 12 CFR 615.5050); and the net collateral ratio (as defined by 12 CFR 615.5301(d)).

Several of the individual line items on Schedule RC-J must equal line items or combinations of line items on Schedule RC. Therefore, reporting institutions should complete Schedule RC prior to completing Schedule RC-J.

The Farm Credit Act of 1971, as amended, and 12 CFR 615.5050, 5060, and 5090 require each bank to maintain sufficient collateral (available collateral as reported in item 11 of this schedule) for all of its secured debt obligations (items requiring collateralization as reported in line 19 of this schedule).

Under the requirements of 12 CFR 615.5050(a) each bank shall have on hand at the time of issuance of any notes, bonds, debentures, or other similar obligations, and at all times thereafter maintain, free from any lien or other pledge, assets consisting of notes and other obligations representing loans made under the authority of the Act, real or personal property acquired in connection with loans made under the Act, obligations of the United States or any agency thereof direct or fully guaranteed, other bank assets (including marketable securities) approved by the Farm Credit Administration, cash, or cash equivalents approved by the Farm Credit Administration, in an aggregate value equal to the total amount of notes, bonds, debentures, or other similar obligations outstanding for which the bank is primarily liable. The regulations also establish:

- The collateral value of eligible investments (as defined in 12 CFR 615.5140) as the lower of cost or market value.

\* Change made effective March 15, 2001

**Schedule RC-J**  
**Collateral Position (cont'd)**

---

- The collateral value of notes and other obligations representing loans made under the authority of any Farm Credit Act shall be the unpaid balance of such loans adjusted for any allowance for loan losses (except as provided for in 12 CFR 615.5090).
  - The collateral value of loans in process of liquidation or foreclosure, judgments, and sales contracts shall be the unpaid balance of such loans, judgments, and contracts adjusted for any allowance for losses.
  - The collateral value of loans which have been restructured by any action, such as an extension, deferment, or partial release, shall be the new unpaid balance of the loans adjusted for any allowance for losses.
  - \* • The collateral value of property acquired in the liquidation of loans shall be the book value of such property.
  - Collateral shall not include the amount of any loan that exceeds the maximum amount authorized under the Act or part 614 of the regulations.
  - Collateral may include the collateral value of secured interbank loans, computed as provided in 12 CFR 615.5050(c)(1), provided that the assets securing the loan could serve as collateral supporting the issuance of obligations under 12 CFR 615.5050(a). In computing its eligible collateral, the borrowing bank shall not count the assets securing such loan.
  - Each bank shall have procedures which will ensure that the bank is in compliance with the statutory requirements for maintenance of collateral.
- \* Amounts representing secured borrowings under repurchase agreements are to be reported as obligations requiring collateralization. Similarly, amounts that represent collateral used to secure borrowings under such agreements are to be reported as available collateral to the extent that the amount being reported for each individual transaction does not exceed the amount of the obligation that it secures.

FCA regulation 12 CFR 615.5301 defines net collateral (reported in item 14 of this schedule) as meaning the value of a bank's collateral (as defined by 12 CFR 615.5050 except that eligible investments as described in 12 CFR 615.5140 are to be valued at their amortized cost), less an amount equal to that portion of the allocated investments of affiliated associations that is not counted as permanent capital by the bank.

Under the requirements of 12 CFR 615.5335 each bank shall achieve and at all times maintain a net collateral ratio (reported on item 22 of this schedule) of at least 103 percent. At a minimum, a bank shall compute its net collateral ratio as of the end of each month. A bank shall have the capability to compute its net collateral ratio a day after the close of a business day using the daily balances outstanding for assets and liabilities for that date.

**Collateral Position (cont'd)**

---

**Line-Item Instructions**

---

**Item No.      Caption and Instructions**

---

**Available Collateral**

**1            Net Loans.**  
Report the net amount of loans available for collateral. This amount must equal the sum of the amounts from Schedule RC, items 4(a) through 4(e) plus items 5(a) through 5(d). Accordingly, this total equals all principal and accrued interest receivable on loans, notes, sales contracts, nonaccrual loans, and other assets appropriately classified as loans and eligible for collateral.

**2            Less: Excess loans.**  
Report the amount of excess loans. For collateral reporting purposes, loans must be valued under the requirements of 12 CFR 615.5050(c)(5). This provision states that collateral shall not include the amount of any loan that exceeds the maximum amount authorized under the Act or part 614 of the Regulations (i.e., lending limit violations per 12 CFR 614.4352 and loan to value requirements per 12 CFR 614.4200(b)).

In order to properly compute excess loan amounts, any excess amount should be reduced to the extent that a specific (GAAP) allowance has been established on this same loan. For example, assume that a bank has a reamortized loan with a new outstanding principal balance of \$100,000. The primary security backing the loan has a current market value of \$80,000. The bank has established a \$20,000 specific (GAAP) allowance on this loan for financial reporting purposes. Because the loan has undergone a servicing action, for collateral reporting purposes, the loan must be valued under the provisions of 12 CFR 615.5050(c)(5).

Accordingly, the value of this loan that may be reported as collateral is 85 percent of the \$80,000 appraised value of the primary security, or \$68,000 (\$80,000 x 0.85). The \$32,000 difference (\$100,000 new loan balance minus \$68,000) between the unpaid principal balance of the loan and the new carrying value would normally be reported as a reduction to collateral in the form of an excess loan.

However, because this loan has a \$20,000 specific allowance, the \$20,000 specific allowance should be used to offset the excess loan amount such that only \$12,000 (\$32,000 minus \$20,000) of the excess should be reflected as a reduction to collateral in the form of an excess loan. The purpose of this adjustment is to minimize the effects of "double counting" resulting from regulatory requirements.

<b>3</b>	<p><b>Less: Loans not secured by a first lien within 1 year.</b></p> <p>Report the amount of loans that, after 1 year from the date of closing, must be withdrawn from collateral because proper documentation has not been obtained evidencing that the loan is secured by a first lien on real estate or its equivalent in accordance with 12 CFR 615.5060.</p>
<b>4</b>	<p><b>Less: Nonconforming loans</b></p> <p>Report the amount of any loans that did not conform, <u>at the time of loan closing</u>, with the requirements of the law or regulations. Pursuant to 12 CFR 615.5090, such loan must be withdrawn from a bank's available collateral.</p>
<b>5</b>	<p><b>Less: Unsecured notes receivable.</b></p> <p>Report the amount of unpaid principal and/or the accrued interest receivable portion of any notes receivable from Farm Credit banks and others that by the terms of the note agreement is considered to be unsecured under 12 CFR 615.5050(c)(6).</p>
<b>6</b>	<p><b>Less: Allowance for losses.</b></p> <p>Report the amount of the allowance for losses on mortgage loans, purchase money mortgages, real estate sales contracts, notes receivable, nonaccrual loans, and other loan-related assets. This amount must be equal to Schedule RC, item 4(f).</p>
<b>7</b>	<p><b>Other property owned.</b></p> <p>Report the amount of real and personal property acquired by foreclosure or otherwise in liquidation of loans, accounts and notes receivable, sales contracts, etc. This amount must be equal to Schedule RC, item 7.</p>
<b>8</b>	<p><b>Cash.</b></p> <p>Report the total holdings of cash and balances due from depository institutions. These include: (a) cash items in process of collection, currency, and coin; (b) holdings of interest-bearing and noninterest-bearing balances due from depository institutions in the United States and banks in foreign countries, whether in the form of demand, savings, or time balances; and (c) balances of all types, and for all purposes, due from Federal Reserve banks. <b>9</b>	<b>Eligible investments (lower of cost or market).</b> Report the amount of marketable investments, including accrued interest receivable, that the bank holds to maintain a liquidity reserve, manage short-term surplus funds, and manage interest rate risk (see 12 CFR 615.5140). Investments that are not eligible under 12 CFR 615.5140 should not be reported in this line item. For collateral purposes, investments must be valued at the lower of cost or fair market value, determined on an individual investment basis. That is, each individual investment's amortized cost value must be compared to its market value at the report date, the lower value being reported in the aggregate amount.
<b>10</b>	<b>Other adjustments (explain in an addendum).</b> Report the amount of any other adjustments to available collateral. All amounts reported in this line must be fully explained in an addendum.
<b>11</b>	<b>Total available collateral (per FCA Regulation 615.5050).</b> Report the sum of items 1 through 10 above.

- 16 Accrued interest payable.**  
Report the amount of accrued interest payable on Systemwide bonds and medium-term notes, Farm Credit investment bonds, and notes payable to Farm Credit banks and others. This amount will equal the total amount of accrued interest payable shown on Schedule RC, line 12(d).
- 17 Less: Uncollateralized portion of notes payable.**  
Report the amount of the unpaid portion of any notes payable (including any applicable accrued interest payable) to Farm Credit banks and others that do not require collateralization.
- 18 Other adjustments (explain in an addendum).**  
Report the amount of any other adjustments to items requiring collateralization.
- 19 Total obligations requiring collateralization.**  
Report in this item all secured debt obligations of the reporting bank that require collateralization. This amount is the total of items 15 through 18 above.

**Adjusted Liabilities for Net Collateral Ratio Purposes**

- \* 20 Total liabilities.**  
Report in this item the amount of total liabilities. This amount must equal Schedule RC, item 15.
- \* 21 Adjustments to total liabilities for SFAS 133.**  
Report in this item the total amount of adjustments to total liabilities required by § 615.5301(j)(1). The adjustments required by § 615.5301(j)(1) are to exclude certain effects of SFAS No.133, *Accounting for Derivative Instruments and Hedging Activities*, on amounts reported as total liabilities in the calculation of the net collateral ratio.

## Schedule RC-K

### Accrual Loan Activity Reconciliation for Loans, Leases, Notes Receivable (excluding Intra-System Loan), and Sales Contracts

---

#### General Instructions

This schedule covers the detailed reporting of the institution's loan activity for the current period. The schedule is designed to show the reconciliation of the increases and decreases to loans, etc., outstanding from the end of the prior period to the end of the current period.

Information should be reported by the institution that books the loan. Accrued interest receivable and all intra-System notes should be excluded from this schedule. The activity for all other loans, leases, notes receivable, and sales contracts should be reported.

**Items 1-16 and 18 are applicable only to direct lender institutions. Items 17(a) and 17(b) must be reported by all reporting institutions.**

#### Line-Item Instructions

---

Item No.	Caption and Instructions
1	<b>Accrual loans—beginning balance.</b> Report the amount of accrual loans, etc., outstanding at the beginning of the period. <b>This amount must equal the amount reported on Schedule RC-K, item 16, of the reporting institution's prior quarter report.</b>
2	<b>Direct new money</b> Report the amount of advances representing the extension of credit resulting from direct negotiations between the reporting institution and borrowing entities. Include advances on loans, etc., to new borrowers as well as those parts of loans to existing borrowers that are not used to retire previously outstanding principal or interest receivable already carried on the books of the reporting institution. Include advances used to retire indebtedness to any lender other than the reporting institution and advances on loans originated by the reporting institution even though all or part of the loans are subsequently sold as participations.
3	<b>Purchases of loans and participations.</b> Report the amount of advances representing the purchase of loans or parts of loans resulting from direct negotiations between a borrower and a lender other than the reporting institution.

<b>13</b>	<b>Transfers to other property owned.</b> Report the amount of accrual loans for which other property owned has been received by the reporting institution through foreclosure proceedings in lieu of repayment of the loan. The amount transferred out should equal the fair market value of the other property owned received. Any amounts of the loan left on the books that are above the fair market value of the asset received should be charged off and recorded in item 14.
<b>14</b>	<b>Chargeoffs.</b> Report the gross amount of accrual loans, etc., determined to be uncollectible and charged off during the period.
<b>15</b>	<b>Other credits.</b> Report the amount of other credit transactions affecting the balance of accrual loans, etc., outstanding during the period that cannot adequately be explained in items 9 through 14 because they are unusual and/or nonroutine in nature.
<b>16</b>	<b>Accrual loans—ending balance.</b> Report the amount of accrual loans, etc., outstanding at the end of the period. This amount is the sum of items 1 through 8 less items 9 through 15. <b>The amount reported must equal the sum of the amounts reported on Schedule RC, items 4(a), 4(c), and 4(d).</b>

## Schedule RC-L Nonaccrual Loan Activity Reconciliation

---

### General Instructions

This schedule covers the detailed reporting of the institution's nonaccrual loan activity for the current period. The schedule is designed to show the reconciliation of the increases and decreases to nonaccrual loans outstanding from the end of the prior period to the end of the current period.

For detailed information regarding composition of nonaccrual loan balances, see instructions for Schedule RC, item 4(e).

### Line-Item Instructions

Item No.	Caption and Instructions
1	<b>Nonaccrual loans—beginning balance.</b> Report the amount of nonaccrual loans outstanding at the beginning of the period. <b>This amount must equal Schedule RC-L, item 9 on the reporting institution's prior quarter report.</b>
2	<b>Gross amounts transferred into nonaccrual status.</b> Report the amount of loan principal and accrued interest and other amounts that have been transferred or changed to the institution's nonaccrual loan balances.
3	<b>Chargeoffs.</b> Report the gross nonaccrual loan amounts that have been determined to be uncollectible and were charged off during the period.
4	<b>Transfers to other property owned.</b> Report the amount of nonaccrual loans for which other property owned has been received by the reporting institution through foreclosure proceedings in lieu of repayment of the loan. The amount transferred out should equal the fair market value of the other property owned received, and any amounts of the loan left on the books which are above the fair market value of the asset received should be charged off and recorded in item 3.
5	<b>Reinstatement to accrual status.</b> Report the amount of nonaccrual loans that were transferred to accrual status.
6	<b>Recoveries.</b> Report the gross amount of recoveries during the period on nonaccrual loans previously charged off. Recoveries represent amounts received or recognized that were previously believed uncollectible and therefore charged off.

<b>Item No.</b>	<b>Caption and Instructions</b>
<b>7</b>	<b>Repayments.</b> Report the amount representing the receipt of funds during the period from borrowers for direct application against nonaccrual loan balances carried on the books of the reporting institution. Include amounts deposited with or otherwise available to the reporting institution for application against nonaccrual balances, such as advances and future payments, trust funds, stock, and participation certificate balances. Also include funds received from lenders responsible for supervising the loans in which the reporting institution has purchased participations.
<b>8</b>	<b>Other (net).</b> Report the amount of any other debit and credit transactions affecting the balance of nonaccrual loans outstanding during the period which cannot be included in the above items because they are unusual and/or nonroutine in nature.
<b>9</b>	<b>Nonaccrual loans—ending balance.</b> Report the amount of nonaccrual loans outstanding at the end of the period. This amount is the sum of items 1 + 2 - 3 - 4 - 5 + 6 - 7 + 8. <b>This amount must equal Schedule RC, item 4(e), for the current quarter.</b>

**Other-Property-Owned (Net of Depreciation) Activity Reconciliation**

---

**General Instructions**

This schedule covers the detailed reporting of the institution's other property owned activity for the current period. The schedule is designed to show the reconciliation of the increases and decreases to other property owned from the end of the prior period to the end of the current period. The property to be reported in this schedule is property which has been acquired outright by foreclosure. For additional information, see instructions for Schedule RC, item 7.

<b>1</b>	<b>Other property owned—beginning balance.</b> Report the amount of other property owned at the beginning of the period. <b>This amount must equal Schedule RC-M, item 7, on the reporting institution's report for the prior period.</b>
<b>2</b>	<b>Gross amounts transferred in.</b> Report the fair value of other property owned which has been obtained through foreclosure proceedings or other loan liquidation processes.
<b>3</b>	<b>Amounts depreciated.</b> Report the amount of depreciation on other property owned for the period.
<b>4</b>	<b>Properties disposed of.</b> Report the gross amount of other property owned which was sold or otherwise disposed of during the period. Amounts reported must be based on the lower of the property's market value or book value at time of sale or disposition.
<b>5</b>	<b>Net chargeoff/writeups.</b> Report the amount of other property owned charged off or written up during the period as well as any additional losses incurred resulting from disposition.
<b>6</b>	<b>Other.</b> Report the amount of other transactions affecting the balance of other property owned during the period that cannot be included in the preceding lines because they are unusual and/or nonroutine in nature.
<b>7</b>	<b>Other property owned—ending balance.</b> Report the amount of other property owned as of the end of the period. This amount is the sum of items 1 + 2 - 3 - 4 - 5 + 6. <b>The amount reported must equal the amount reported on Schedule RC, item 7.</b>

## Schedule RC-N.1 Repricing Opportunities and Relationships

---

### General Instructions

**Schedule RC-N.1 must be reported only by banks;** it is not applicable to any other Farm Credit reporting institutions.

This schedule requires the reporting of the distribution of the reporting institution's total interest-earning assets and total interest-bearing liabilities (in asset and liability categories specified by the line-item captions of the schedule), by the length of time from the report date to the date of the next repricing of the instrument, or from the report date to maturity if the instrument does not reprice.

The schedule has three parts. Part I covers all interest-earning assets of the reporting institution as of the report date; part II covers all interest-bearing liabilities of the reporting institution as of the report date; and part III covers the off-balance sheet items which create synthetic assets or liabilities.

In each part, the line-item captions designate types of assets, liabilities, or synthetic/derivatives and the kind of information required about them; and column captions designate the breakdown of time periods for the length of time from the report date to the first repricing opportunity for floating-rate instruments or to maturity date for fixed-rate instruments.

Institutions should report assets, liabilities, and synthetics in the repricing interval that is consistent with the institutions' own assumptions as reported to their ALCO or board. **Rather than basing the entries to the schedule solely on the contractual terms and conditions applicable to the items covered, the institutions should incorporate their current prepayment assumptions into this schedule.** FCA expects institutions to use reasonable assumptions that are consistent with those reported to ALCOs, senior management, and board members for other risk-measurement purposes.

- \* Synthetic transactions involve derivative instruments that effectively change the maturity/repricing or interest rate structure of a reporting institution's assets or liabilities. **Derivative instruments that do not change the maturity/repricing structure of the reporting institution's assets or liabilities or do not have an effect on the weighted average interest rate of assets or liabilities on the report date are not pertinent to this schedule and should not be reported under synthetic transactions.**

Derivative (synthetic) transactions that are directly tied to assets or liabilities can be netted into the asset or liability sections. For example, if an institution issues 2-year debt and swaps the debt payments into a floating rate payment stream (3-month LIBOR, for example), the institution may report the transactions in part II of the schedule under the "over 1 month through 6 months" column. The impact of the synthetic transaction on the effective interest rate of the asset or liability must be reflected in column G (Weighted Average Rate).

**\*\* Change made effective March 15, 2001.**

**Schedule RC-N.1**  
**Repricing Opportunities and Relationships (cont'd)**

---

Weighted average interest rate refers to the average annual effective interest rate at which interest accrues as of the report date on the assets or liabilities whose rates are being averaged, where the individual rates are weighted by the dollar amounts of the instruments to which they apply. The weighted average rate for any group of assets or liabilities may be calculated by multiplying the appropriate dollar value of each instrument in the group by the annual effective rate at which interest is accruing on the report date on that instrument; summing the dollar estimates calculated for all instruments in the group; and then dividing that sum by the aggregate dollar value of all the instruments included in the group. For purposes of this schedule, the calculation of average interest rates is to be carried to four decimal places and so reported; for example, 8-2/3 percent would be reported as "00.0867."

**Column Instructions**

The captions of columns A through E (for parts I, II, and III) provide the time-period specifications for reporting assets and liabilities in terms of the time from report date to maturity or to the next repricing opportunity. Distribute the book value of the interest-earning assets (part I), interest-bearing liabilities (part II), and derivative and other synthetic items (part III) specified in the line captions in accordance with the definitions and instructions above and the column instructions below.

<b>D</b>	<b>Over 1 year and through 5 years.</b> Report in this column those assets, liabilities, or synthetic transactions with an original maturity or assumed repricing or prepayment of over 1 year and through 5 years from the reporting date.
<b>E</b>	<b>Over 5 years.</b> Report in this column those assets, liabilities, or synthetic transactions with an original maturity or assumed repricing or prepayment of over 5 years from the reporting date.
<b>F</b>	<b>Total.</b> For each line of the schedule that calls for the reporting of amounts outstanding of assets or liabilities, report in column F the total of the amounts reported in columns A through E.
<b>G</b>	<b>Weighted average rate.</b> For each type of asset, liability, and synthetic transaction, report the weighted average interest rate as of the reporting data. Amounts reported are to be carried out to four decimal places (i.e., 12-2/3 percent weighted average rate is to be reported as "00.1267").

**Line-Item Instructions**

\* The lines of the schedule specify the types of interest-earning assets, interest-bearing liabilities, and synthetic transactions on which information must be reported in the schedule and the types of information that must be reported. The types of assets, liabilities, and derivative and other synthetic items to be reported are described below in connection with each line. The information reported is the same for each type of asset, liability, and derivative and other synthetic transaction. For each type of asset and liability specified, report in each column that part of the total book value of the asset (or liability, or derivative and other synthetic items) that corresponds with the time (from report date to maturity or first repricing opportunity as defined above) specified by the column heading given above.

\* **Part III      Derivative and other synthetic items**

Report on the appropriate line the impact of the specified synthetic transactions. Synthetic transactions have the impact of increasing the amount of assets (receive side of a swap) or the amount of a liability (pay side of a swap). Do not net synthetic transactions that have both pay and receive cash flows on the same line. The weighted average interest rate reported in column G must apply to the total synthetic assets or liabilities reported in column F. Do not include synthetic assets and liabilities that have already been netted against assets or liabilities.

**9      Synthetic assets.**

Report the notional amount of synthetic assets under the appropriate time interval column.

**10      Synthetic liabilities.**

Report the notional amount of synthetic liabilities under the appropriate time interval column.

**11      GAP.**

This amount is the sum of items 4 - 8 + 9 - 10.

**12      Cumulative GAP.**

This amount is calculated from item 11.

## Schedule RC-N.2 Interest Rate Risk Measurements

---

### General Instructions

This schedule requires the reporting of the results of the institution's internal interest rate risk model for measuring interest rate risk. It also contains the institution's projected final net income for the next 12 months and current calendar year. Interest rate risk measurements are reported for the institution's most recent financial projection and for the impact of 200 and 400 basis point instantaneous and sustained shocks in interest rates to a "base case" scenario.

The schedule contains two parts. Part I includes the measurements for individual banks; part II includes the measurements for districtwide (combined bank and association) data.

This schedule contains two financial scenarios: (1) column A contains the results of the "most likely" or most current financial projection; and (2) column D contains the results of a "base case" scenario that is based on the current balance sheet configuration and current interest rates. The other columns (B, C, E, and F) contain 200 and 400 basis point instantaneous and sustained shocks to the base case (column D) scenario.

FCA recognizes that the risk-measurement systems of the different institutions may have internal differences and limitations in calculating the market value of assets, liabilities, synthetics, and equity. The interest rate risk measurements reported on this schedule, although not necessarily the same, should be fairly compatible and consistent with the risk measurements reported to an institution's ALCO, senior management, and board of directors.

\* Market value simulation is the process of generating multiple forecasts for future interest rate scenarios and then discounting the estimated cash flows under those rate scenarios to arrive at the current market value of the various assets, liabilities, derivative and other synthetic items, and the market value of equity. This schedule gathers the results of the institution's market value analysis under six interest rate scenarios, as indicated by the six columns. The interest rate scenarios are: (1) the institution's current forecast for market rates; (2) an instantaneous and sustained 400 basis point decrease in "base case" rates; (3) an instantaneous and sustained 200 basis point decrease in "base case" rates; (4) "base case" interest rates as defined below; (5) an instantaneous and sustained 200 basis point increase in "base case" rates; and (6) an instantaneous and sustained 400 basis point increase in "base case" rates.

The market value (net present value) of assets, liabilities, and equity reported in column D of the schedule are calculated from the current (static) balance sheet as of reporting date and a flat (or constant) interest rate scenario. The projected balance sheet configuration used to generate the net interest income projection in column D should not have a material impact on the calculation of the

\* **Change made effective March 15, 2001.**

## Schedule RC-N.2 Interest Rate Risk Measurements (cont'd)

---

net present values of assets, liabilities or equity. **If the market (net present) values for assets, liabilities or equity (reported in column D) are materially changed by the projected balance sheet values, the institution must include an explanation of the differences in an addendum.**

FCA recognizes that market value simulation depends heavily on the assumptions used in the model. For example, market value simulations can incorporate assumptions for fast prepayments (larger early cash flows) from mortgage loans and securities in low-rate scenarios and slow prepayments (smaller early cash flows) from mortgage loans and securities in a high-rate scenario. However, FCA expects the assumptions to be reasonable and supported by some type of study or analysis. FCA would expect, that institutions would change prepayment speeds under the different interest rate scenarios. FCA would also expect the institution's repricing of administered rate loans to be reasonable and supported by analysis and/or studies.

### Column Instructions

Each column represents a separate scenario under which the risk measurements are reported. With the exception of assumed interest rates, FCA requires that the assumptions used in each scenario be consistent with the institution's most recently updated financial business plan. Some assumptions (such as prepayment speeds) however, would be expected to change based upon the interest rate scenario.

The interest rate assumptions for each of the columns are as follows:

---

Column	Caption and Instructions
<b>A</b>	<b>The institution's most recent financial projection.</b> Interest rates, projected balance sheet configuration, prepayment speeds, etc., should all be based on the institution's most recent financial projection.
<b>B-F</b>	<b>Plus and minus 200 and 400 basis point shocks to "base case" interest rates.</b> Projected interest rates for column D ("base case") should be based on current interest rates. The current yield curve as of the reporting date is held constant for the reporting period.  Projected interest rates for columns B, C, E, and F should be calculated by shocking the rates used in column D (base case) up or down 200 and 400 basis points. <b>Note:</b> when the current 3-month Treasury bill interest rate at quarter-end is less than 4 percent, both the minus 200 and minus 400 basis point shocks should be replaced with a downward shock equal to one-half of the 3-month Treasury bill rate.

## **Schedule RC-O**

### **Asset Purchases and Sales**

---

#### **General Instructions**

This schedule requires institutions to report the amount outstanding (principal only), as of the quarter end reporting date, of certain transactions with other Farm Credit and non-Farm Credit institutions involving the purchase and sale of loans, leases and other similar lending and leasing assets that remain outstanding as of the last day of the quarter. Amounts to be reported include transactions that were entered into pursuant to an institution's:

- Lending and participations authorities;
- Similar authorities;
- "Other interest in loans" authorities;
- Leasing authorities; and
- Other lending and leasing authorities of the Act.

Amounts reported in this schedule should not include the purchase and sale of assets reported in Schedule RC, Balance Sheet, as cash, accounts receivable, marketable investments, notes receivable from other Farm Credit institutions, equity investments in other Farm Credit institutions, premises and other fixed assets, or other property owned. Amounts reported in Schedule RC, Balance Sheet, as "other assets" should not routinely be included in this schedule unless the transaction was pursuant to the institution's authorities described above. Do not report in this schedule amounts involving transactions pursuant to the institution's authority to have an investment in farmer notes program or loan transactions with eligible borrowers where the institution has a direct contractual relationship with a non-similar entity borrower via direct involvement in a loan syndication transaction. (See Schedule RC.1, Memoranda, for reporting transactions involving farmer notes programs and non-similar entity loan syndications.) In addition, do not report amounts involving transactions pursuant to a Farm Credit bank's (FCB or ACB) authorities to discount and fund eligible loans made by other financial institutions (OFIs) or authorities to provide direct funding to Farm Credit associations. Furthermore, do not report the purchase of securitized assets or sale of loan or lease assets to Farmer Mac except for transaction amounts involving the sale of loan and lease assets purchased or acquired via syndications and participations pursuant to the institution's similar entity authorities in § 613.3300 of the FCA regulations.

The schedule distinguishes between transactions with other Farm Credit institutions and those with non-Farm Credit institutions. In addition, the schedule distinguishes transactions completed pursuant to the reporting institution's specific authorities under the Act.

- \* On the last page of these instructions is a flowchart that provides guidance on how to report a particular loan/lease asset. # GUIDANCE FOR REPORTING ON SCHEDULE RC-O

NOTE: Although not specifically shown, the 'Purchased' and 'Sold' amounts reported on Schedule RC-O must be segregated between Farm Credit institutions and non-Farm Credit institutions.

<sup>1</sup> This includes all similar entity loan and lease transactions purchased from another FCS institution (i.e. once a similar entity transaction, always a similar entity transaction).

<sup>2</sup> All purchases and sales (even on the same asset) should continue to be reported on this schedule for as long as the reporting institution has an interest/role in the underlying asset (and the asset has an outstanding balance due from the customer). Note that participation sales, even 100% participations, are sales of cash flows and do not end the selling institution's role in an asset as it is still the contract holder. In contrast, the sale of an entire asset ends the selling institution's interest/role in the sold asset.

<sup>3</sup> Note that the amount reported on RC-O line 4(b) will generally be zero even if there are "other interest" sales. An "other interest" sale involving the sale of an entire asset ends the interest/role of the selling institution in the underlying asset; thus, there is no continuing amount to report on Schedule RC-O.

<b>Item No.</b>	<b>Caption and Instructions</b>
<b>2</b>	<b>Net increase or decrease (–) resulting from provision for loan loss.</b> Report the amount representing the adjustment in earnings necessary to maintain the allowance for losses in accordance with generally accepted accounting principles (GAAP). <b>This amount must equal the amount shown on Schedule RI, item 4(a), in the current period.</b>
<b>* 3</b>	<b>Loans, etc., charged off.</b> All institutions are required to follow Agency-issued regulations and guidelines on chargeoffs. Chargeoffs should be recorded on a timely basis and only to the extent that a loan balance after the chargeoff represents the loan's collateral value.
<b>* 3a(i)</b>	<b>Real estate mortgage</b> Report the amount of loans, notes receivable, sales contracts, and leases determined to be uncollectible and charged off during the period on real estate mortgage loans, as defined in the instructions for RC.1, item 1(a)(i)(A).
<b>* 3a(ii)</b>	<b>Production and intermediate term</b> Report the amount of loans, notes receivable, sales contracts, and leases determined to be uncollectible and charged off during the period on production and intermediate term loans, as defined in the instructions for RC.1, item 1(a)(i)(B).
<b>* 3(b)</b>	<b>Agribusiness</b> Report the amount of loans, notes receivable, sales contracts, and leases determined to be uncollectible and charged off during the period on all loans to cooperatives, processing and marketing loans, and farm related business loans, as defined in the instructions for RC.1, items 1(a)(ii)(A), 1(a)(ii)(B) and 1(a)(ii)(C).
<b>* 3(c)</b>	<b>Communication</b> Report the amount of loans, notes receivable, sales contracts, and leases determined to be uncollectible and charged off during the period on all communication loans, as defined in the instructions for RC.1, item 1(a)(iii).

* 3(f)	<b>Rural residential real estate</b> Report the amount of loans, notes receivable, sales contracts, and leases determined to be uncollectible and charged off during the period on all rural residential real estate loans, as defined in the instructions for RC.1, item 1(a)(vi).
* 3(g)	<b>International</b> Report the amount of loans, notes receivable, sales contracts, and leases determined to be uncollectible and charged off during the period on all international loans, as defined in the instructions for RC.1, item 1(a)(vii).
* 3(h)	<b>Lease receivables</b> Report the amount of loans, notes receivable, sales contracts, and leases determined to be uncollectible and charged off during the period on all lease receivables, as defined in the instructions for RC.1, item 1(a)(viii).
* 3(i)	<b>Total loans charged off</b> Report the sum of items 3(a) thru 3(h).
4	<b>Recoveries.</b> As with chargeoffs, all institutions are required to follow Agency regulations and guidelines on recoveries. An institution should be careful not to recognize recoveries prematurely. Amounts received by an institution that would materially reduce a loan balance below its net realizable value should give due consideration to recording a recovery.

- 6) MKTVALUE\_FCA.xls spreadsheet exactly as output by QRM, including pivot tables.
- 7) Operating Expense.xls spreadsheet containing operating expense detailed data and regression run.
- 8) RBC Loan Data.xls spreadsheet with cash window and LTSPC loan detail including column headings for: loan number, current balance, type, group, property state, origination date, purchase date, original loan balance, scheduled principal and interest, appraisal value, loan to value ratio, current assets, current liabilities, gross farm income, farm expense, farm depreciation, interest on capital debt, capital lease payment, living expenses, income taxes, net off farm income, total debt service, commitment fee rate, seasoned loan flag, debt-to-asset ratio, total debt coverage ratio, payment debt coverage ratio, standard 9 flag, delinquency code, payment due date, delinquency balance, commodity number (up to 5). Also, include a summary page with checks against American Southwest Services reports and standbys broken out by customer. **The RBC Loan Data.xls must provide data at origination on loans for which Farmer Mac has collected and maintained origination underwriting information necessary for RBC calculation purposes as required by 12 CFR 650 Subpart B and Appendix A to Subpart B.**
- 9) Other items as requested by FCA.

All schedules are to be completed and included in Farmer Mac's Certification Letter.

### Filing Requirements

\*Call Report schedules required of Farmer Mac must be prepared and submitted **electronically**. Call Reports can also be filed in hardcopy form with the Compliance Officer, Office of Policy and Analysis, Farm Credit Administration, 1501 Farm Credit Drive, McLean, Virginia 22102-5090. **Call Reports must be filed with FCA on or before the date they are due. If the due date falls on a Saturday, Sunday or Federal holiday, the Call Report is due at FCA the next business day. The initial RBC report must be filed with the FCA at the same time that Farmer Mac publishes the press release of its yearend or quarterend financial results, but no later than the last business day of the month that follows yearend or quarterend. The yearend December 31 quarterly Call Report must be filed with the FCA 2 business days after the Form 10-K is filed with the Securities and Exchange Commission (SEC), but no later than the 90th day following yearend. All other Quarterly Call Reports must be filed with the FCA 2 business days after the Form 10-Q is filed with the SEC, but no later than the 45th day following the end of the quarter. The final RBC report must be included as part of the yearend and quarterend Call Reports filed with the FCA. The initial and final RBC reports are deemed by the FCA as fulfilling the requirements of 12 CFR 650.27.**

\*Revised effective March 15, 2005.
